

CS103 Midterm Exam I Score Distribution

Below is the overall grade distribution for the first CS103 midterm exam:

Here are some statistics about the score distribution:

75th Percentile: 21 / 24 (86%)

50th Percentile: 18 / 24 (75%)

25th Percentile: 15 / 24 (63%)

As a reminder, *we do not curve individual exam scores in this course*. Instead, we apply a grading curve to everyone's final raw total score at the end of CS103. The grading curve has been relatively stable over time, so you are not competing with the other students in this course. Remember: your ultimate goal in this course is to master the material, not to do better than your fellow classmates.

If you have any questions about the exam, please feel free to reach out to us.

Full solutions to the exam are available in the normal handout filing cabinet in the Gates building. Feel free to stop by at your convenience to pick them up.
