

Javadoc Documentation

- Javadoc comments
 - Start with: `/**`
 - End with: `*/`
- Special "tags" (**@param**, **@result**, etc.)

```
/**
 * Simulates rolling die with NUM_SIDES sides.
 * @param rolls The number of times to roll the die.
 */
private void rollDice(int rolls) {
    for (int i = 0; i < rolls; i++) {
        int roll = rgen.nextInt(1, NUM_SIDES);
        println("You rolled: " + roll);
    }
}
```

Javadoc for ACM Libraries

- Javadoc for ACM libraries available at:

<http://jtf.acm.org/javadoc/student/>

- Let's take a look at Javadoc for RandomGenerator
[RandomGenerator](#)
