

Azure IoT

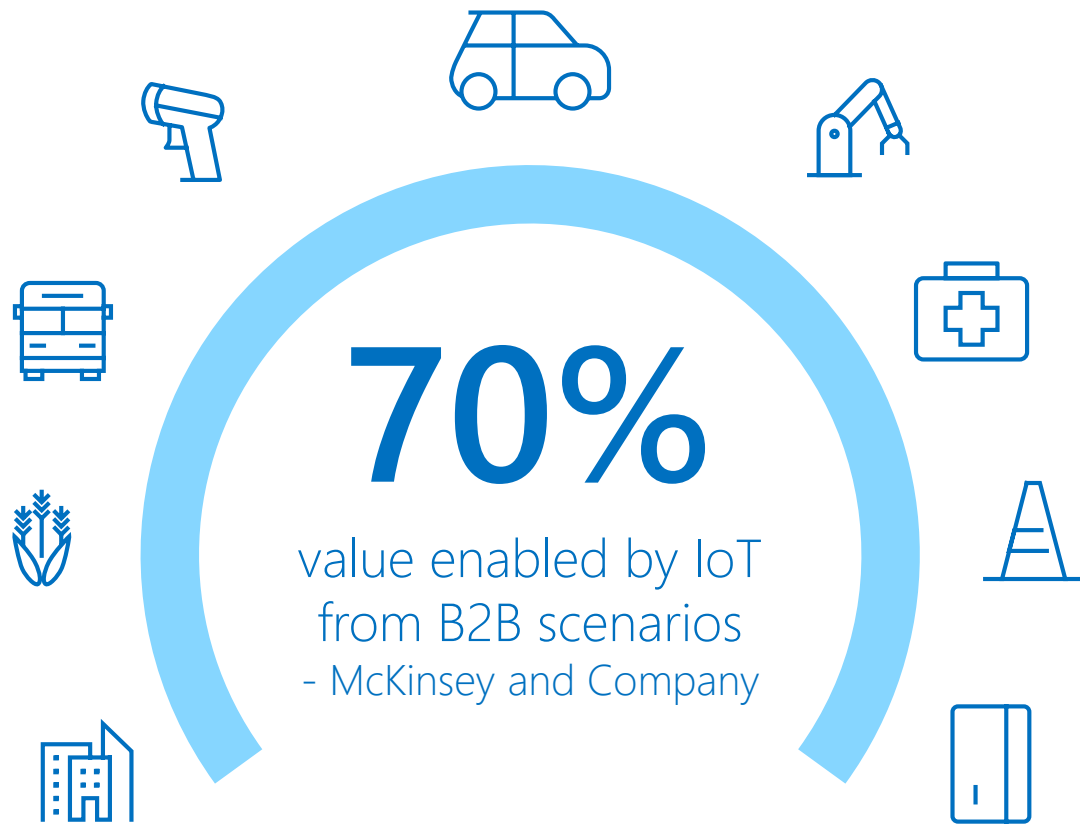

Digital Transformation and
the Internet of Things

Manash Goswami

Sr. Director, Devices Design-in
IoT Solutions

The Internet of Things opportunity

80 billion

connected "things" by 2025 - IDC

180 zettabytes

digital data by 2025 - IDC

\$457 billion

global IoT market by 2020 - Gartner

The Internet of Things **isn't**
a technology revolution...

...IoT is a **business revolution**,
enabled by technology

Applications of IoT

Selling Packaging as a Service

Connecting machines to collect real-time data has enabled performance and future failure monitoring, allowing Tetra Pak to revolutionize their business model

[Click](#) to learn more

Enhancing workroom break times

Microsoft IoT and Advanced Analytics ensure snack machines are never out of stock, and enable MARS to better understand customer behavior.

Rolls-Royce®

Filtering the signal from the noise

Used analytics to discover actionable insights around fuel usage, predictive maintenance and stop unscheduled delays.

Security Tech Germany

These transformations have four imperatives

Engage your
customers

Transform
your products

Empower your
employees

Optimize your
operations

Defining IoT

Things

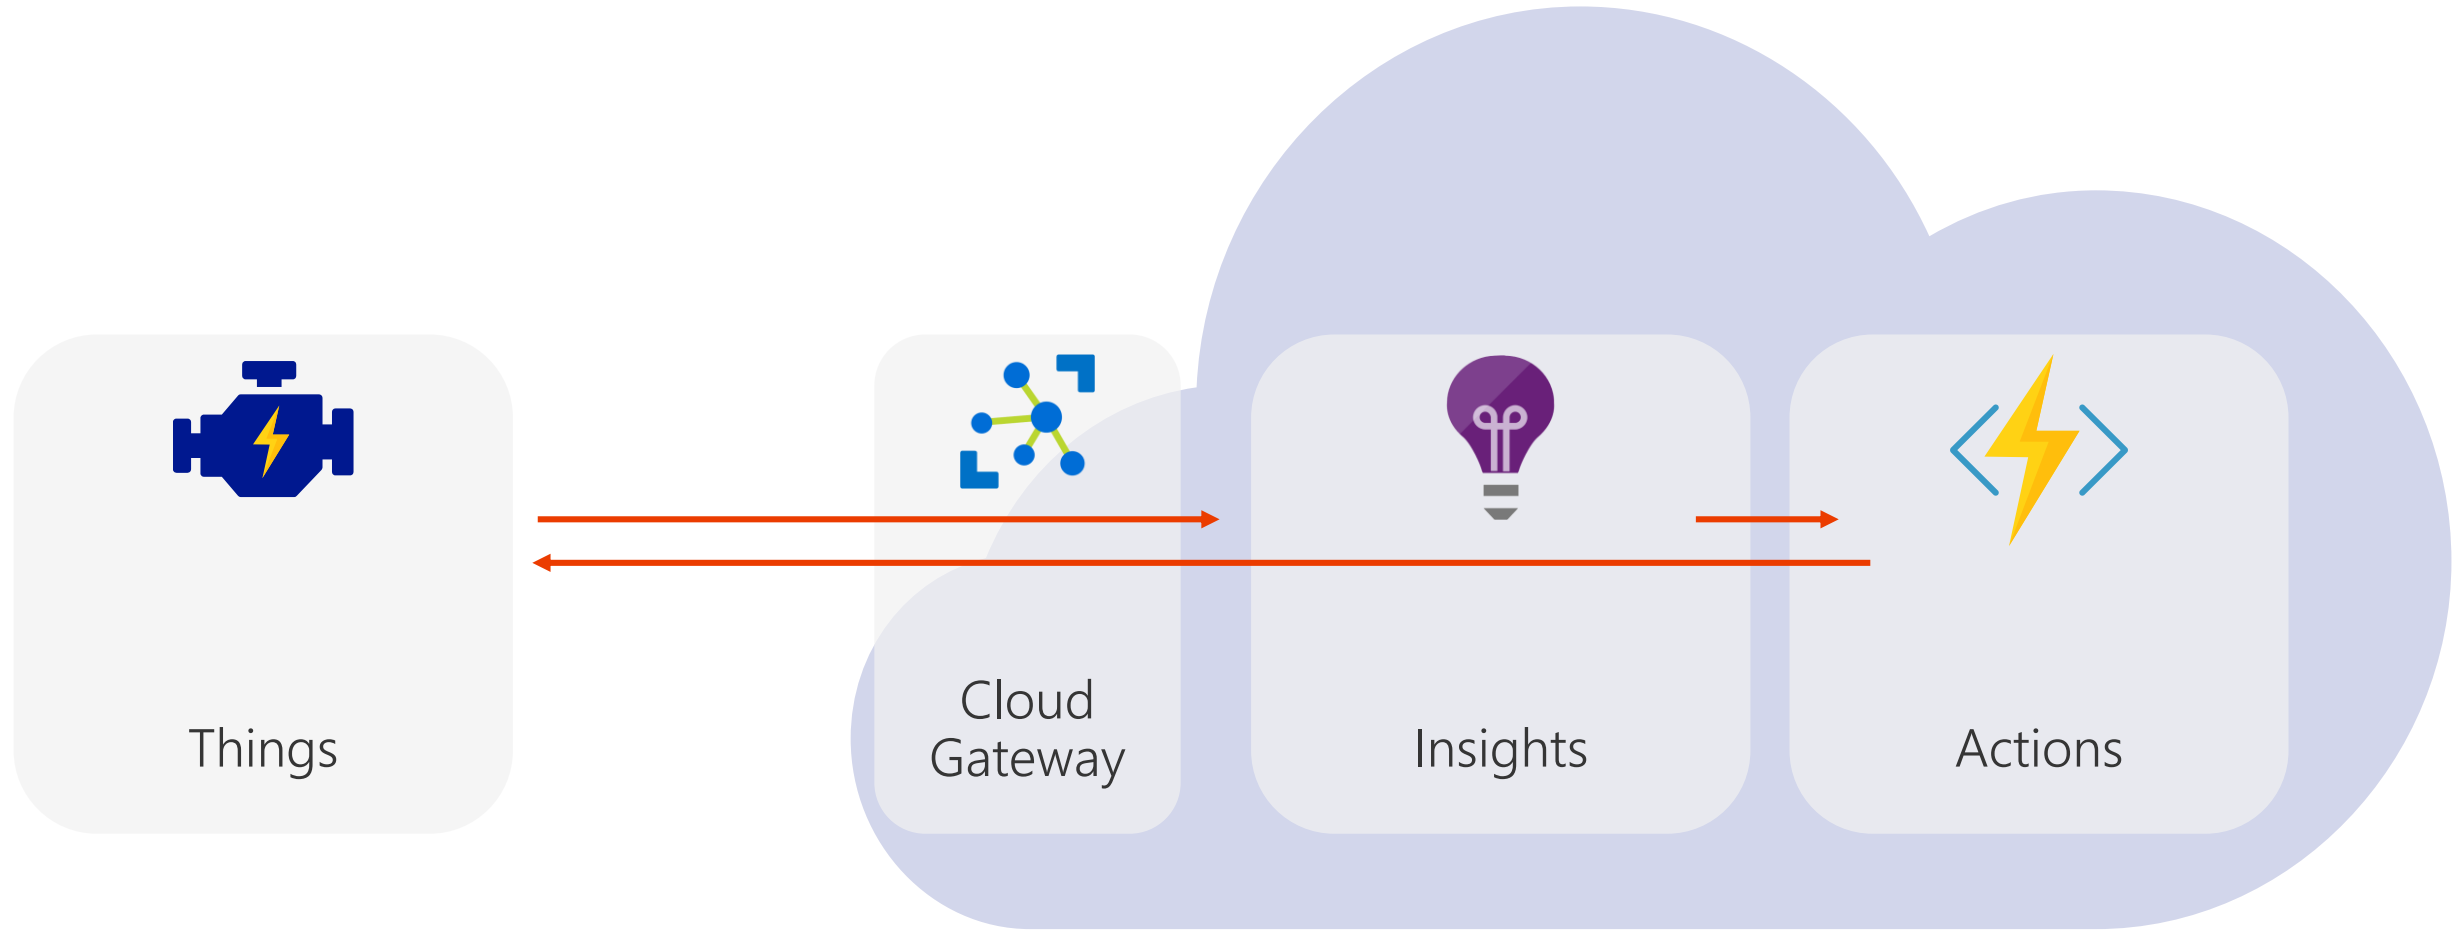

Insights

Action

IoT Solutions Have a Common Pattern

The Data Explosion

Built on an industry's leading hyperscale cloud...

50 Azure regions around the world

Waves of Innovation

Cloud

Globally available, unlimited compute resources

IoT

Harnessing signals from sensors and devices, managed centrally by the cloud

Edge

Intelligence offloaded from the cloud to IoT devices

AI

Breakthrough intelligence capabilities, in the cloud and at the edge

Why Intelligent Edge?

High-speed data processing, analytics and shorter response times are more essential than ever.

Intelligent Cloud

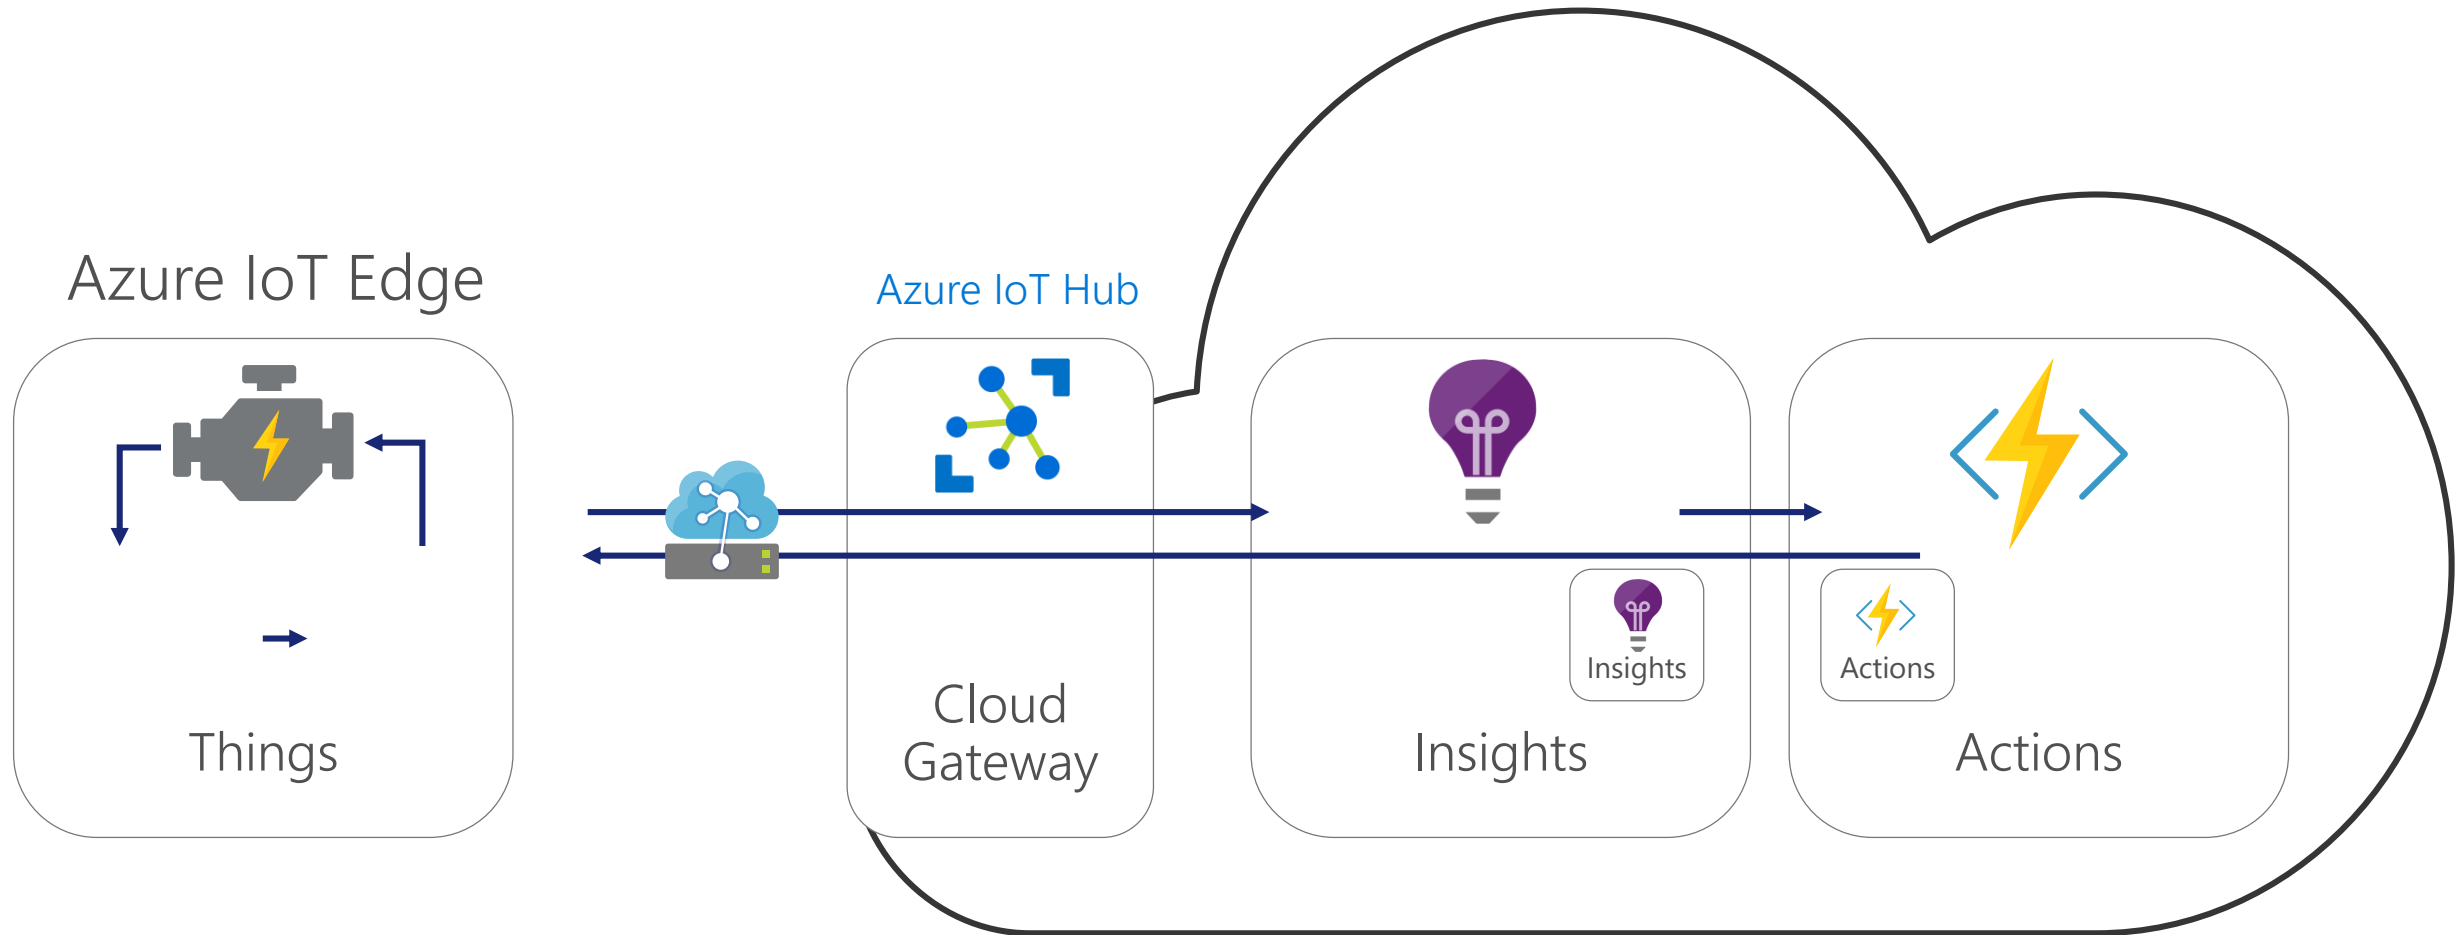

- Business agility and scalability: unlimited computing power available on demand.

Intelligent Edge

- Can handle priority-one tasks locally even without cloud connection.
- Can handle generated data that is too large to pull rapidly from the cloud.
- Enables real-time processing through intelligence in or near to local devices.

IoT Pattern + Edge

Building IoT Solutions

Creating Business Value through IoT

Edge to Cloud IoT Architecture

Deploy & Scale

Step 1 – Develop concept

Step 2 - POC/POV/PreProd

Step 3- Production

Thank You!

ευχαριστώ Salamat Po متشكراً شكراً Grazie

благодаря ありがとうございます Kiitos Teşekkürler 谢谢

ឧបត្ថម្ភ Obrigado شكريه Terima Kasih Dziękuję

Hvala Köszönöm Tak Dank u Wel дякую Tack

Mulțumesc спасибо Danke Cám ơn Gracias

多謝晒 Ďakujem תודה நன்றி Děkuji 감사합니다
