Quick Aside – Bucket 7-8 Examples (2018)

• Images on the showcase are former A++ (Bucket 10) projects: http://web.stanford.edu/class/cs148/showcase.html (Note that clicking an image in the showcase shows the project report)

• However, there were many good A-range (Bucket 7-8) projects too. The next few slides show examples of such from last year.

• The CA’s will go over example projects from previous years more in depth on 12/3 & 12/5.
