CS298 / EDUC 298 Course Information and Syllabus

Instructor: Chris Gregg
Email: cgregg@stanford.edu
Office: Gates 201
Phone: 857-234-0211
Office hours: Tuesdays 9:00 - 11:00am and Thursdays 10:00am - 12:00pm, in Gates 201

Lectures: Tuesdays from 1:30pm – 2:50pm, Green Earth Sciences 131.
Units: 1 units. Anyone is welcome to attend, or audit.

CS 298 / EDUC 298 is a 1-unit seminar on teaching introductory computer science. We will be primarily working our way through Your First Year Teaching Computer Science, a book written by Chris, which covers everything from motivation to teach computer science, to the nuts and bolts of teaching (creating courses, creating assignments, grading, meeting with students, doing research, etc.).

Readings:

- Your First Year Teaching Computer Science can be found here: https://web.stanford.edu/class/cs298/cgi-bin/course-reader/

Website: http://cs298.stanford.edu is the course website. There you'll find all reading assignments, lecture slides, and homework assignment specifications.

Student Forums: We'll have a Slack workspace for CS298. We'll use Slack as an informal question-and-answer forum where we can discuss teaching. I expect the course will be very small, so we will see how active the slack channel becomes.

Grading: You can only take this course CR/NC. There will be approximately one assignment per week, commensurate with the idea that this is a seminar and not meant to take a terrific amount of time. I expect everyone who does the assignments with some effort will do fine in the course.

Course Syllabus: See the course website for a full calendar.
