I Didn't See You There

Reid Davenport - Filmmaker

Winner of the Directing Award for US Documentary at the 2022 Sundance Film Festival

When a circus tent goes up outside of his apartment, a disabled filmmaker must confront the legacy of the Freak Show and whether his past autobiographical filmmaking has fit into its tradition. With the camera pointed away from himself, he captures the personal and poetic from his wheelchair.

Fixed: The Science / Fiction of Human Enhancement (6:51)

From botox to bionic limbs, the human body is more "upgradeable" than ever. But how much of it can we alter and still be human? What do we gain or lose in the process? Award-winning documentary, Fixed: The Science/Fiction of Human Enhancement, explores the social impact of human biotechnologies. Haunting and humorous, poignant and political, Fixed rethinks "disability" and "normalcy" by exploring technologies that promise to change our bodies and minds forever.
