

Projects with Danny

Danny Designers

Marisa and Mathilda test fit their laptray project onto Danny's wheelchair. (2024)

Hungry Dawgs

Juli and John created a feeding system that enables Danny to independently feed his service dog Korey. Danny pours the dog food into the funnel which directs it into Korey's bowl. (2022)

iPhone 4

Darren and Stephanie test a prototype cradle for Danny that allows him to independently charge his iPhone. (2023)

iPhone 4

The iPhone 4 team, Sasha, Darren, Nicole, and Stephanie gather around Korey, Danny, and Stanford. Note the portable water bowl device fabricated by Su-paw-star Solutions (not pictured) for Korey on Danny's wheelchair.

Hungry Dawgs, Click, Crafty Mechanical Juniors

Back Row: Jessie,
John, Juli, Kiara,
Mauro, Cindy, and
Dave.

Front Row: Daniel,
Stanford, McKinley,
Alessandra, Danny,
Jeanette, and Korey.

Teams Hungry Dawgs, Click, and Crafty Mechanical Juniors gather around Danny. Hungry Dawgs fabricated a device that would allow Danny to independently feed his service dog Korey. Click worked on a magnetic ergonomic safety belt that made it easier for Danny to buckle himself into his wheelchair. And Crafty Mechanical Juniors created a wearable storage pack for Danny's phone and other items. (2022)
