Ethical / Moral Dilemmas Related to Disability

formally titled
“Fun with Ethics”
Making Decisions

1. Everyone evaluates situations and makes decisions everyday

2. As one gets older, these decisions more frequently involve and affect others

3. Tough decisions are often made using a complex combination of upbringing, economics, religion, law, individual notion of what is right, politics, and personal experience
Situation 1

Would it be wrong for a “normal” couple to abort a fetus diagnosed with dwarfism or Down Syndrome?
Situation 2

If two parents with Achondroplasia – an inherited form of dwarfism – wanted a child who looked like them, would it be wrong for them to terminate a normal-sized fetus?
Situation 3

Should everyone have a right to bear arms?
Situation 4

Should someone who is blind have a right to bear arms?
Situation 5

You are a biomedical engineer in a spinal cord injury ward. An occupational therapist approaches you with a patient’s request. The patient, an individual with quadriplegia, wants a device that would enable him to independently smoke a cigarette.

What do you do?
Situation 6

You are a sign language interpreter for a deaf woman. Her communication includes a lot of obscenities which causes you a lot of embarrassment and distress.

What do you do?
Situation 7

As a surgeon, would you approve a heart transplant for a child with a disability?
Situation 8

As a concerned citizen, would you condone the marriage and subsequent parenthood of a couple, one or both with developmental disabilities?
