Introduction: 
CBI, Culture, & Media

• **Content-based instruction (CBI)** is a holistic approach to the integration of language and content learning. 

  Content ↔ Culture (**Big-C** and **little-c**) 

The **Big-C** and **little-c** Cultures are integrated in the National Standards for Foreign Language Learning.

• **Media** refers to the physical manifestation, form or instrument used to convey message. (e.g., TV news, ads, film)

• **Media literacy** refers to the ability of accessing, analyzing, evaluating, and communicating media content or messages in a variety of forms. ➔ Media Content
Language Teaching & Media

• The ultimate goal of target language learners is to reach a proficiency level as high as possible, a goal that takes time and effort to reach.

• Media is one of the most widely available information sources, using visual and audio materials on current Korean social, political, economic and cultural events and issues.

• Distinct media sources can be targeted to particular learning levels (e.g., film, ads, TV news and newspaper articles for advanced learners).

News Media as a Teaching Resource

KOR 403-404 & KOR 421-422: Media Analysis In Korean

• News Media:
  1) tend to attract and hold the attention of students
  2) provide a useful way of exposing students to excitement of learning by introducing them to subject knowledge that stimulate interest and attention of students
News Media as a Teaching Resource

• News items (in L2 setting) are a little beyond students’ current level of content knowledge and understanding in respect of the words or phrases used or a topic.

• This also provides an opportunity to introduce new or advanced (or subject specific) vocabulary in a context that demonstrates their importance in everyday situations.

• Learning from reading (print media such as newspapers, internet articles) & from listening (broadcast media such as documentary, TV talk shows, TV news)
Teaching format for media literacy class

Reading
1) Reading: read media texts (such as newspaper article) related to a specific topic or theme.
2) Q&A for reading comprehension: Try to answer questions based on the media analysis checklist.
3) English translation

Listening
1) To understand clearly TV shows or news related to the same/similar topic above.
2) To exchange ideas clearly and precisely with peers by writing a summary in Korean.
3) To distinguish fact from opinion and to make inferences and draw conclusion
4) Wrap-up
Ads as a Teaching Resource

1) Ads, language and culture are deeply connected to one another (Strauss 2006).

2) Messages tend to be stereotypical and relate easily to the most common values in the society.

3) Are widely available and easily accessible.

4) Make students more interested & engaged.

5) TV commercials are very short (15 to 30 seconds).

Role & Benefit of Media

• To introduce students to subject knowledge or (informative) content
• To attract students’ attention or to make students more interested (sometimes, excitement of learning)
• To offer cognitive experiences
• Benefit of CBI through media: Self-directed learner; More motivated/engaged learner; Critical and analytic thinking
Conclusion: Culture teaching through media

- Integrating media content and language (CBI).
- Understanding the orally and visually authentic character of Korean media (e.g., documentary, TV news, etc.) not only gives students a rich and varied context in learning Korean language and culture, but also provides a chance to be exposed to the advanced vocabulary which is beyond the students’ current proficiency level.
- Teaching format should be different depending on the type of media. (e.g., film, TV news, Ads, etc.)
감사합니다
