

Chris Holman is an associate professor of law at the University of Missouri-Kansas City School of Law. He teaches and writes primarily in the areas of intellectual property, biotechnology and antitrust law, with a focus on the interface between patents and biotechnology. He is the author of Holman's Biotech IP Blog. Prior to becoming a law professor, he served as vice-president of intellectual property and patent counsel at several Silicon Valley biotechnology companies. He was also an associate at a major intellectual property law firm. A native of California, Professor Holman received a Ph.D. in biochemistry and molecular biology from the University of California at Davis, and engaged in post-doctoral drug discovery research at Roche Biosciences in Palo Alto, California. He attended law school at UC Berkeley's Boalt Hall.
