Nano Science & Engineering Education and Outreach

PI: David Goldhaber-Gordon, Nicholas A. Melosh
NSF NSEC Grant PHY-0830228
Center for Probing the Nanoscale, Stanford University

“The Tools of Nanotechnology” class taught by CPN Associate Director, Tobi Beetz, introduced Stanford sophomores to hands-on nanoscience activities and our research facilities (left figure) and inspired them to engage 50 local high school students in those activities during SPLASH, a Stanford student-run event in October 2011. Among the many other outreach activities in 2011, CPN graduate students ran a booth at the Girl Scouts National Bridging Meeting in San Francisco in May 2011 and provided hands-on nanoscience activities for approximately 500 students and parents (right figure).
