

Hopkins Marine Station Access Request

Hopkins Marine Station, Pacific Grove, CA 93950

Visiting investigators: use this form to request access to Hopkins Marine Station when conducting intertidal or subtidal research/coursework from the Hopkins waterfront.

Name: _____

Project title: _____

Project location: (describe & mark on map) _____

Start date: _____

Anticipated end date: _____

Affiliation (institution): _____

Position (if student, advisor's name & position): _____

Advisor's signature: _____

Mailing address: _____

Phone: _____

e-mail: _____

Please check all that apply:

- Specimen collecting/tagging
- Substrate disturbance
- Diving
- Boat use

Please submit a description of your proposed research/teaching visit(s), including:

- Purpose of the research or course, number of students and supervisors, and dates and times of use
- Details of methods and equipment use, including any specimen collections or substrate disturbance
- Indicate the areas you plan to use on the attached map

Boats:

If you plan to use your institution's boat(s), please describe and list CF#s.

Diving:

Visiting divers must be scientific divers or divers-in-training current in an AAUS or equivalent research diving program with approval from their DSO. All visiting divers entering the MPA from Hopkins must file waivers and reciprocity letters (LORs) with Stanford's Diving Safety Officer.

Permits:

CA DFW: If any specimens are to be taken, tagged or marked, a California Department of Fish and Wildlife Scientific Collecting Permit is required, with permission for such activity within the MPA "LoversPoint - Julia Platt State Marine Reserve"

MBNMS: Any substrate disturbance (e.g. drilling, clearing, instrument deployment, mooring installation, installation of bolts, cages etc.) requires a permit from the Monterey Bay National Marine Sanctuary.

Please attach copies of any permits to this request.
