Our Company

Kamino International is an award winning Global Logistics provider and Freight Forwarder founded in New York in 1969. Kamino operates 24 facilities in major global markets. Combine these with an extensive network of Agent partners and Kamino provides Global Supply Chain Solutions tailored to meet your specific and unique needs. Whether it is freight forwarding, customs brokerage, value-added warehousing and distribution or domestic freight management, Kamino has the blend of services to streamline your supply chain.

Kamino's founder and Group Chairman, Mr. Klaus Kretschmer is based in our U.S. corporate offices in New York. The Managing Director of The Kamino Group, Mr. Jim Nayyar is based at our European corporate offices in London. Kamino started operations in New York City in 1969 specializing in airfreight forwarding between the U.S. and major European markets. Over the next 12 years, Kamino would open 6 additional offices in the US as business began to expand.

To further support the growth and enhance services, in 1982 we opened our first company-owned European facilities in London and Manchester followed quickly with operations in The Netherlands, Switzerland and Germany.

In the early 90's as companies began to expand the outsourcing of their global Warehousing and Distribution, Kamino responded to customer's needs by opening its first third party warehouse operation in the Netherlands. Since that time, Kamino's Value-added Warehousing and Distribution services have expanded while the Freight Forwarding business continues to flourish.

Now in 2005, Kamino offers a full menu of value-added Logistics services in 18 of our facilities in the U.S., Europe, and the Pacific Rim.

From point of manufacture overseas through to delivery to the end-user, we provide a full supply chain service supported by state of the art internet tracing and tracking systems. In addition to shipment and purchase order tracking worldwide, Kamino's Warehouse Management Systems offer clients a web-based view, 24/7 of their product inventories and sales orders from our warehouse to your customers. Excellent communications are vital in today's global economy and Kamino's systems support these requirements.

Across our global facilities network, Kamino fills thousands of orders per day working with clients to build customized solutions specific to their market and customer base. Whether it is Business to Business or Business to Consumer orders, Kamino has the infrastructure and systems to meet your requirements. In Europe, Kamino operates networked Call Centers to meet unique client demand.

Our company culture is one that promotes and empowers our employees to satisfy the customer, be flexible and build relationships that lead to long term partnerships. This is supported by the fact that more than 130 Kamino employees around the globe are Shareholders in our company.

We very much appreciate this opportunity to be of service to you and look forward to a long and mutually beneficial partnership.

Our Service Offering

Kamino's services extend from the management of your shipments by air, ocean and ground transportation through to the warehousing and distribution of your products with online inventory control and reverse logistics services.

Logistics & Value-Added Warehousing / Distribution Services

An efficient supply chain will give your business a competitive edge. Kamino has years of experience in designing and managing logistics solutions worldwide. Combining this experience with our state-of-the-art Warehouse Management System (STORE), we offer:

<ul style="list-style-type: none"> • Container Devanning • Barcode Scanning • Inventory Control • Storage • Order Processing (unit, case or pallet level) 	<ul style="list-style-type: none"> • Fulfilment Services, • Pick-Pack & Over-Pack • Container Stuffing/Blocking/Bracing • Reverse Logistics (Returns Management) 	<ul style="list-style-type: none"> • Display Building • Light Assembly • Repair/Refurb/Product Testing • Palletization • And More!
---	--	--

You can utilize Kamino to manage your shipments and products from the point of manufacture through to the end user. Our logistics services combined with online visibility throughout the chain ensures that your products are delivered safely, in the correct quantity and on time with 100% customer satisfaction.

Freight Management & Forwarding Services

Whether you require airfreight, ocean freight or ground transportation, Kamino has the solution.

We provide efficient and cost effective airfreight consolidation and direct air services to and from all major global markets. Kamino's NVOCC, Kamino Ocean Line provides both Full Container and Less Than Container Load services to meet your import and export ocean freight requirements. If you have multiple overseas vendors and require a purchase order consolidation service, Kamino Ocean Line can help. Let us consolidate your purchase orders and help you lower the cost of import transportation.

In addition, the status of multiple purchase orders can be monitored online through Kamino's StatusTrack system 24/7. Our customers benefit from Kamino's worldwide buying power within all major lane segments across the globe. We maintain strong partnerships with many domestic small package and LTL Motor Freight companies to assure domestic shipments are delivered on time at competitive prices.

Using Kamino's global network ensures that at each stage, every shipment is handled efficiently, cost effectively and with 'On-Line Visibility' throughout the supply chain.

Customs

If your company imports from one or more overseas markets, you are aware that no less than 100% Compliance to Customs regulations is acceptable. In addition to accurate entry filing, abiding by all country-specific security regulations is absolutely necessary. At Kamino facilities worldwide, our highly trained, experienced Customs Brokers and support staff are ready to serve.

We understand the importance of being right first time, every time when it comes to clearing your shipments with Customs. Combine the attention to detail with prompt, efficient clearance and delivery of your goods makes Kamino the right choice to handle your Customs Brokerage worldwide.
