Setting Internet Explorer Security to Enable RM3 Excel Downloads

**Issue:** Some users have encountered difficulties with downloads to Excel in reportMart3. If disabling pop-up blockers does not solve the problem, users should change their security settings as noted here. Please follow the 4 steps illustrated below.

1. On the top Internet Explorer menu, Go to Tools > Internet Options

2. Click on “Security” tab on top. Choose Trusted Sites and Click on Sites… 

---

**Click on Security**

**Click Trusted Sites**

**Click on Sites**

Type both the URLs above as shown in the screen shots below and click on Add and Click OK

4. Enable Downloads as shown below.
