3. INSTALLATION – BOX STYLE PHONE
   A. Remove the faceplate from the Wurtec telephone.
   B. Position the box of the Wurtec Phone in the elevator phone cabinet, where desired, with about a 3/4” clearance at the bottom of the phone cabinet. This will allow room to install the faceplate and remove it from the box.
   C. Using the back as a template, mark the position of the holes to be drilled for fastening.
   D. Drill (and tap, if necessary) the holes marked for the fasteners.
