

SHM Training @ Acellent after IWSHM

Attending the 9th International World Structural Health Monitoring Conference in Silicon Valley? Extend your stay and join us for a one day SHM training event at Acellent Technologies. This is a rare opportunity for hands-on practice!

Historic and new structures, in aerospace, automotive, civil, commercial are subject to fatigue cracking, corrosion, and other types of damage. Structural health monitoring technologies are increasingly being evaluated as a method to improve the safety and allowing operators to use traditional NDI more economically.

Topics

- What SHM Can Do for Structure Maintainers
- Monitoring Technology: Sensors
 - Identifying the Appropriate Sensors
 - Designing Sensor Network for the Job
 - Demo / Hands-on Exercise: Sensor Install
- Selecting from Systems and Modes
- Monitoring Technology: Hardware
 - Demo: Hardware
 - Hands-on Exercise: Hardware
- Monitoring Technology: Software
 - Demo: Software
 - Hands-on Exercise: Software
- Demo: System Integration
- Q/A

Logistics

Registration is limited to 10 participants.

Cost is \$500 person, and a special discount applies for Acellent system owners. For more details and to register, please send an e-mail to training@acellent.com.

Date: Friday, Sep 13, 2013

Location: Acellent Technologies, Inc.
