William Bridges (Ph.D. Northwestern University, 1975) is Professor of Sociology and Director of the Office of Social Science Research. His research interests are in the sociology of labor markets and social inequality.

Currently, he is pursuing research on the role of market and institutional forces in shaping inequality in the market for professional athletes. Recent publications include "Rethinking Gender Segregation and Gender Inequality"

(Demography, 2003) and, with Robert Nelson, Legalizing Gender Inequality(Cambridge University Press, 1999).
