WHO SHOULD GET TESTED FOR HEPATITIS B?

Were YOU born in a highlighted region? OR Were your PARENTS born in a highlighted region?

If you answered **YES** to either question, you may be at risk for CHRONIC (life-long) hepatitis B infection.

Get a **one-time** blood test.

If you answered **NO** to both questions, get VACCINATED.

1 IN 12 ASIAN AMERICANS IS CHRONICALLY INFECTED WITH HBV. LEARN MORE AT hepbhra.org
