Civil Engineering
2013–2014 Minor Program (CE-MIN)

A CE-MIN program must contain at least 24 units of approved coursework not duplicated for the major program, and must conform to the School of Engineering minor requirements as published in the UGHB. Any prerequisite math or science courses are not included in the 24-unit count and may be counted in the major or other degree program(s).

Name: ____________________________________________________________ SU ID#: __________

Today's Date: __________________________________________ Month/Yr of Graduation: __________
CE Minor Track: __________________________________________________

CE Minor Process:
1. Consult with the recommended advisor listed below, dependent upon which minor track you are pursuing, and obtain study list approval:
   i. Structural Engineering and Construction: Prof. Anne Kiremidjian at kiremidjian@stanford.edu
   ii. Architectural Design: John Barton at jhbarton@stanford.edu
2. Complete a Major-Minor & Multiple Major Course Approval Form, available online at http://studentaffairs.stanford.edu/registrar/forms/ug#study.
3. Once the Major-Minor form has been completed, listing both major courses and your advisor-approved minor study list, obtain a signature from the School of Engineering Dean’s Office in 135 Huang (Darlene Lazar).
4. File a copy of this PS and the Major-Minor form with the CEE departmental student services office in 316 Y2E2. Turn in the original of the Major-Minor form at the Student Services Center in Tresidder Union.
5. Apply on Axess for the minor degree. The CEE administrator will then check the form and either contact you for more information or approve the minor. Minors must be officially declared and all courses completed or in progress no later than the deadline for a student’s application to graduate.

Note *
   All courses taken for the minor must be taken for a letter grade if that option is offered by the instructor. Cumulative GPA for all minor courses must be at least 2.0.
