# Question review

  - Can you give an example of X?
  - Why do you think X is true?
- An unclear question
  - A clear question spoken softly or badly pronounced
  - A confusing, incoherent, or incomplete question, e.g.,  
What about Y?

# Question review

- 3) An unanswerable question , e.g.
  - What will the Supreme Court say about this?
  - What can we do to solve all the new problems that this will create?
  - How can we decide who should get this treatment?
- A complex question
  - I've got three questions: How would you...? Why would you...? And what about patents?
  - I'd like to know whether X, and also about Y, oh, and how about Z?

# Question review

- A big question , e.g.
  - How would you put X into practice?
  - Can you give us a lot more detail about the cost of this?
  - What are some of the ethical issues involved here?
- An irrelevant question
  - Should your group actually be involved in any of this?
  - Don't you think there are better ways to spend money?
  - What do you think will replace this in the future?

# Question review

- A friendly comment
  - I think this is a great idea and want to commend you.
  - If you can get this to market soon, it will be even more impressive
  - I think this is great—I assume it's almost ready to go

# Question review

- An unfriendly comment
  - This is interesting, but you obviously haven't considered X.
