

Classes + Objects Wrap-Up

CS106A, Stanford University

Housekeeping

- Assignment 5 due
 - Poll: <https://pollev.com/assignment5>
- Assignment 6 released today
 - Due Monday, May 23rd
- Everyone is allocated one additional free late day

Another Example: Students

- Want a Class to keep track information for Students
 - Each student has information:
 - Name
 - ID number
 - Units completed
 - Want to specify a name and ID number when creating a student object
 - Initially, units completed set to 0
 - Student's number of units completed can be updated over time
 - Also want to be able to check if a student can graduate
 - Student needs to have at least `UNITS_TO_GRADUATE` units

Bring Me the Students!
