Partner Submissions

Partner Entry

When submitting an assignment that allows partner submissions, you will be prompted to enter the SUNetID (not the ID number) of your partner.

Upon entering a SUNetID, you will be able to see the name of your partner below the input box. Use this to confirm that you selected the right partner.

If you entered an invalid SUNetID or the person already has a partnered submission, you will see an error message at the bottom of the submission box. Here are a few cases in which you will see an error:

- You entered an invalid SUNetID.
- The person currently has a pending partner request.
- The person already has a partner for this assignment.

Choose Files

Invalid partner knazir: Not found or not a student in the course

Submission Confirmation

Once you have entered the correct SUNetID, you will be prompted with some text explaining the details of partner programming. Please note that after adding a partner for a given assignment, **you cannot change partners for any future submissions for that assignment**.
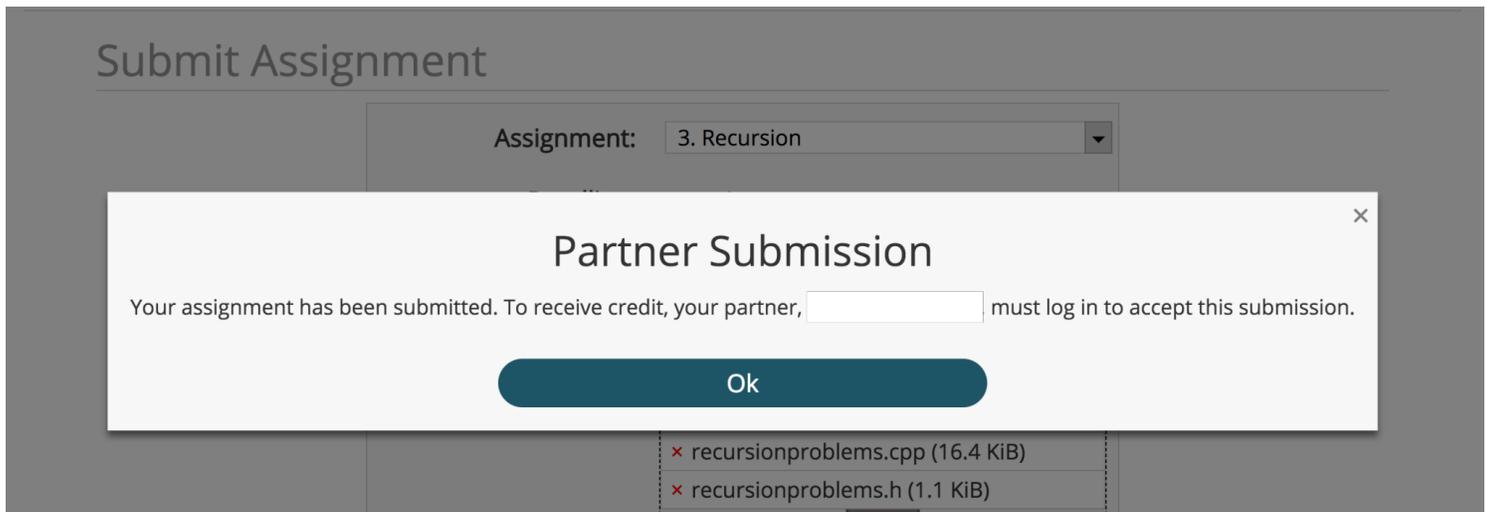

Naming   as a partner only applies to this assignment. After you submit, they will need to log in and accept your submission. After that, please note:

- You and   can continue to make submissions. The latest submission that either of you makes will be graded.
- If you previously submitted this assignment,   will be able to see those submissions.
- You will not be able to change your partner for this assignment after you submit.

By submitting this assignment, you represent under the Honor Code that you and Lily worked jointly on this assignment.

Submit Assignment

After clicking the submit button, you will see a confirmation window. At this point, **your partner must log in to Paperless to accept the partner request in order to receive credit for the submission.**

Partner Request

After sending a partner request, the original submitter will see "Pending to *<name>*" in the partner column when logging in to Paperless. The original submitter can continue to submit as many times as they want at this point.

Assignments

#	Assignment	Partner	Submitted	Deadline	Status
1	Life		Wed, Jul 5, 2017 01:00 PM	Wed, Jul 5, 2017 12:00 PM	Graded
2	ADT		Wed, Jul 12, 2017 05:48 AM	Wed, Jul 12, 2017 12:00 PM	Submitted
3	Recursion	Pending to Lily Fesler (lfesler)	Sun, Jul 16, 2017 10:08 PM	Tue, Jul 18, 2017 12:00 PM	Submitted

The partner with a pending request will have an empty entry in the partner column for this assignment until they accept the request.

Assignments

#	Assignment	Partner	Submitted	Deadline	Status
1	Life		Fri, Jun 30, 2017 08:22 AM	Wed, Jul 5, 2017 12:00 PM	Graded
2	ADT		Wed, Jul 12, 2017 10:45 AM	Wed, Jul 12, 2017 12:00 PM	Submitted
3	Recursion			Tue, Jul 18, 2017 12:00 PM	Need to submit

The partner with a pending request will not be able to submit the assignment until either rejecting or accepting the request. The partner will see a "Request Pending" next to the assignment name in the submission page.

Upon logging in to Paperless, your partner will see a new request available under "Pending Requests." To view the request, they must click the row. in the table.

Pending Requests

#	Assignment	From	Sent
3	Recursion	Adrian Liu (adliu)	Sun, Jul 16, 2017 10:08 PM

Clicking the row will open a window containing information about the request. In this window, you can see which assignment the request is for, who it was sent from, when it was sent, as well as some text explaining that you acknowledge working on the assignment with your partner. This request can either be accepted or rejected.

- Accepting the request will allow the partner to view and upload new submissions for the assignment.
- Rejecting the request will delete the request and allow the partner to receive other requests as well as upload the assignment individually. If you accidentally reject the request, you can have your partner send a new request to accept.
