

Exam Logistics

- Please bring your fully-charged laptop (and your laptop charger) to the exam; we will have power strips for those of you that need to plug in during the exam, but the number of outlets is limited.
- Also remember to bring your two-step authentication device!! You will need this to submit the exam.
- **Please email me ASAP if you are unable to get the practice midterm to work in BlueBook on your laptop.** We will work with you to find an alternate solution.
- You may bring 1 8.5"x11" double-sided sheet of notes into the exam; we will provide scratch paper and a printed reference sheet, so you cannot bring any other pieces of paper.

Exam Logistics

- We will email out the BlueBook file for the midterm on the day of the exam; please download this **before** coming to the exam.
- If you are an SCPD student or have OAE accommodations, you should have received an email from me. OAE rooms will be sent out later today. If you didn't receive an email but are expecting accommodations, please email me ASAP.

Doctors Without Orders

- There is a post on Piazza about a common bug seen by students when working with structs. Take a quick look, it is pinned at the top of posts.
