# Project Idea

Evolution of terrorism in the Middle East

+

Interactive Data Visualization

+

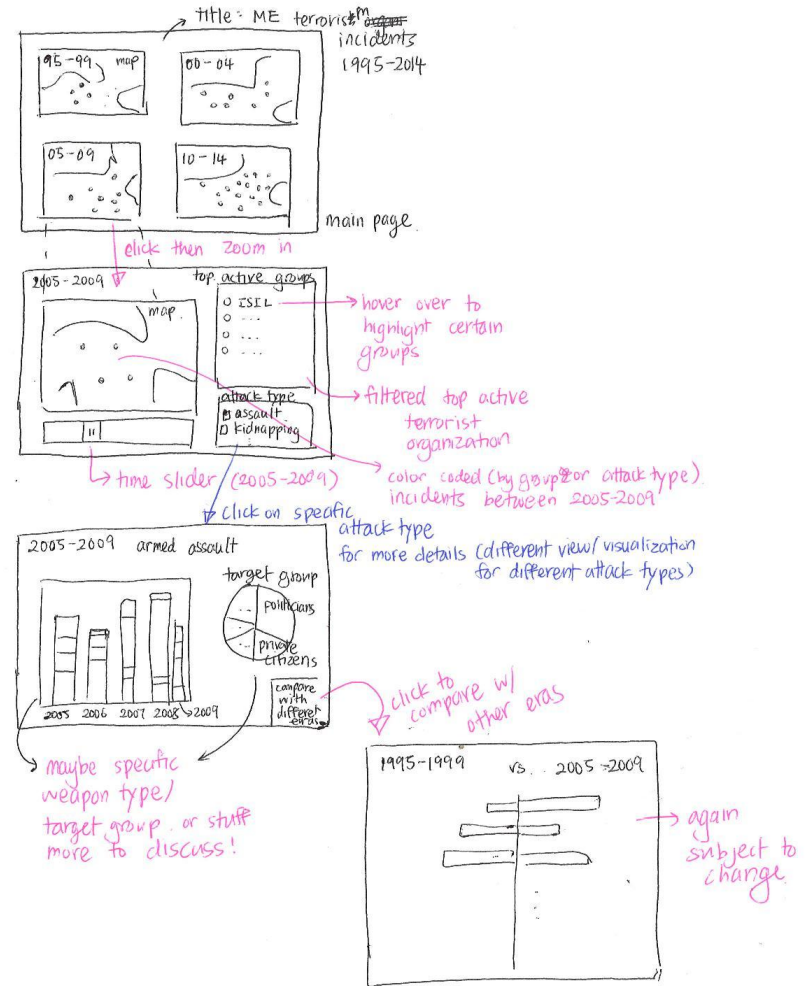

Interactive Data Deep Dive

# Prior Work

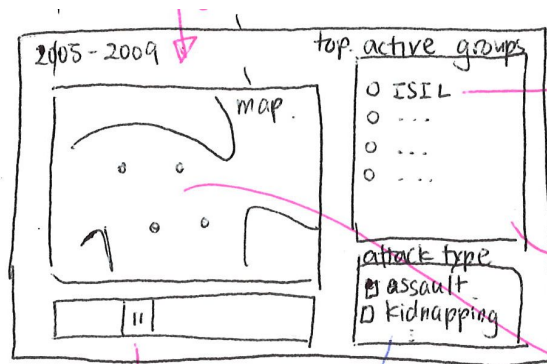

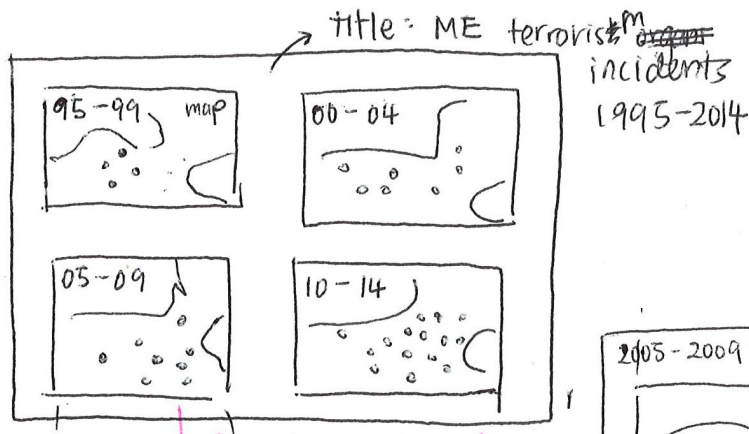

- Static visualization
  - No interactivity
- Interactive visualization
  - Difficult to comprehend (visual overload)
  - Doesn't support side-by-side comparison
- Don't support data-deep dive on the fly

# Project Status

- Story-board is done
- Todo : flesh out details and create prototypes

# Storyboard 1, 2

hover over to highlight certain groups

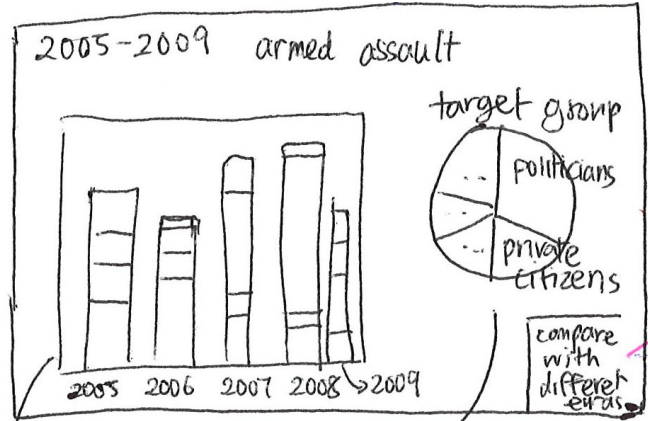

filtered top active terrorist organization

time slider (2005-2009)

click on map

color coded (by group or attack type) incidents between 2005-2009

# Storyboard 3, 4

maybe specific  
weapon type/  
target group, or stuff  
more to discuss!

click to  
compare w/  
other eras
