

ios version

TheGivingTree

Make your donations go further.

android version

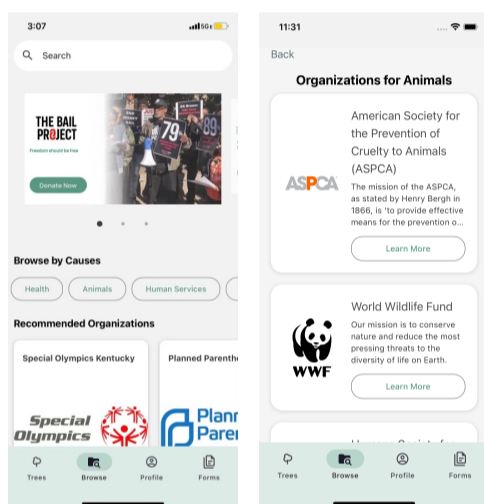

Problem

Finding which charities are the most in need is extremely difficult for the average donor.

Solution

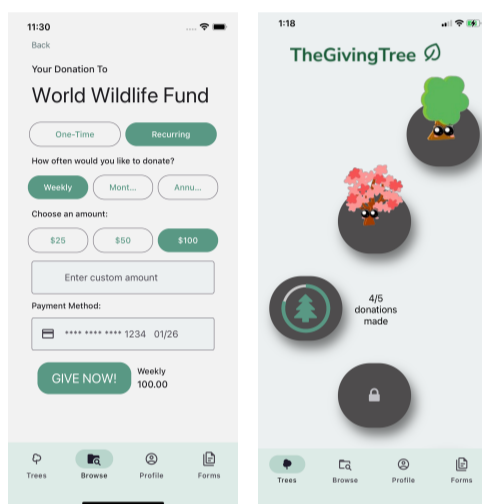

An app that automatically identifies high-impact nonprofits for users and manages donations long-term.

Key Features

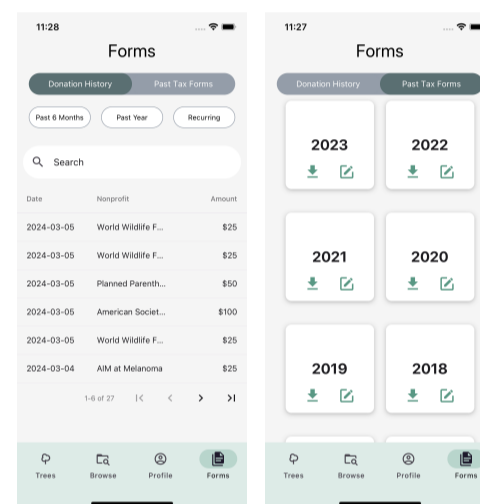

Browse Causes

Filter by cause, need, impact, and more

Make a Donation

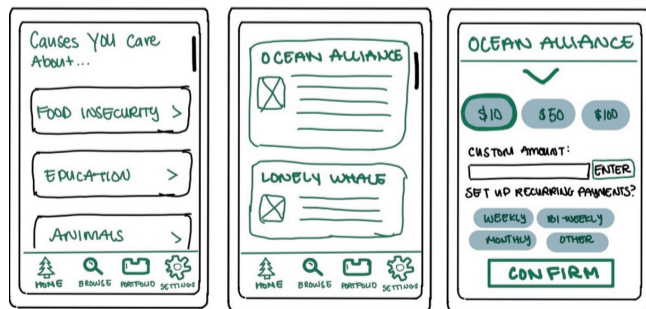

One-time or recurring

Automatic Tax Forms

Access and import auto-generated tax forms

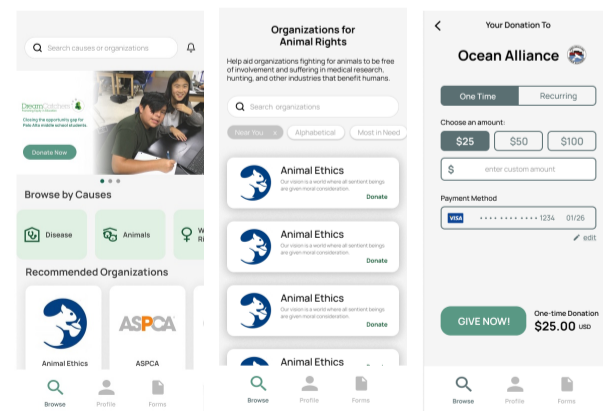

Design Iteration

Low-Fi Prototype

Hi-Fi Prototype V1

Hi-Fi Prototype V2
