

CS9: Résumé Critique Week

We'll spend today peer reviewing résumés.

1. Find three other CS9 students around you, label yourselves A, B, C, and D.
2. Résumé sanity checks:
 - A and B should pairwise skim and critique each other's résumés.
 - C and D should do the same.
 - 10-30 seconds of skim, 5 minutes exchanging feedback.
 - It is important that you **not** spend more than 10-30 seconds skimming.
3. Résumé close reads.
 - A and C should closely read each other's résumés.
 - B and D should do the same.
 - 10 minutes of close reading, 10 minutes exchanging feedback.
