  - Drupal 6 Essential Training
  - Drupal 6: Online Presentation of Data

- Drupal: Creating and Editing Custom Themes (by Chris Charlton)

- Coming soon
  - Drupal 7 Essential Training
  - Something else that’s in production (shh...)
  - ...and more in 2011!
But back to Drupal...

The top three questions:

• Getting images on the page
• Attaching files
• More-flexible content types

• These are all the same thing (in Drupal 7)

• But first… let’s look at them in Drupal 6
Now... on to Drupal 7

- Getting images on the page
- Attaching files
- More-flexible content types
Mucking with fields...

- Display options
- Fields in other entities
  - Profiles
  - Comments
  - Taxonomy terms
Questions?
Let’s talk about...

• Taxonomy (categorizing content)
• Managing permissions
• Making text formats safe  
  – Embedding YouTube videos
• Flexible layout with blocks
• Presenting data with views
• Collecting data with Webforms
• What course content would you like to have?
• ???
