Dear Internship Applicant:

Thank you for your interest in our fully APA accredited Child Psychology Internship Training Program.

Our internship program is open to advanced level predoctoral psychology graduate students enrolled in APA accredited doctoral programs in clinical or counseling psychology. The training program emphasizes broad-based clinical training in the comprehensive assessment and treatment of children, adolescents and families. This is accomplished by placing interns in a variety of training settings, including inpatient, outpatient and consultation-liaison services. Trainees with strong scientist-practitioner backgrounds, specialized graduate work in child psychology, and diagnostic and treatment experience with children and families are particularly well-suited to our training program. The internship begins on July 1st, and is completed on June 30th. All trainees complete one 6-month rotation at Packard Children’s Hospital at Stanford, and one 6-month rotation at the Children’s Health Council.

This internship is accredited by American Psychological Association. For further information, contact: Committee on Accreditation, c/o Office of Program Consultation and Accreditation - APA, 750 First Street, NE, Washington, DC 20002-4242. 202-336-5979.

This year we will be using the APPIC Application for Psychology Internship (AAPI) form. This form may be accessed through the APPIC web site at http://www.appic.org/. This form is formatted so that it may be completed on a computer. If you are not able to access this form, you can request a hard copy directly from us.

Application materials must be received on or before November 15. Applications consist of the following materials in one complete packet:

1. One self-addressed stamped envelope.
2. Completed APPIC Application form.
4. Transcripts of all graduate work.
5. Four letters of recommendation, including one from your graduate Director of Training. To be considered, letters must be signed by the writer across the envelope seal.
6. Two sample psychological testing reports.
Please mail completed application form to:

Lydia Flasher, Ph.D.
Director, Psychology Training Programs
Children's Health Council
650 Clark Way
Palo Alto, CA 94304
c/o Anne Dazey, Internship Coordinator

Selected applicants will be invited for interviews during January. You will be notified about your interview status prior to January 1st.

Our program strictly adheres to the Association of Psychology Postdoctoral and Internship Centers (APPIC) policy that no person at this training facility will solicit, accept, or use any ranking-related information from any intern applicant prior to Uniform Notification Day. If you would like further information about the Children’s Health Council and the Division of Child Psychiatry at Stanford, please refer to our respective web-sites: http://www.chconline.org/ and http://www-cap.stanford.edu/

Again, thank you for your interest in our predoctoral training program, and we look forward to receiving your completed application materials.

Sincerely,

Michelle R. Brown, Ph.D.
Director of Internship Training
Division of Child Psychiatry

Lydia Flasher, Ph.D.
Director of Psychology Training
The Children’s Health Council
