

Dr. Juan-Carlos Ciscar

Juan-Carlos Ciscar is a scientific officer of the European Commission, Joint Research Centre (JRC). He holds a graduate degree and PhD in economics (Universidad de Valencia), and a postgraduate degree in finance and monetary economics at CEMFI (Bank of Spain). He has worked on the assessment of GHG emissions mitigation costs and climate risks, mainly using computable general equilibrium models. At JRC he currently leads a multi-disciplinary team working on the integrated economic modelling of climate risks; he is one of the coordinators of the JRC PESETA projects on climate impacts and adaptation in the EU.
