

Discussion Topics

Thoughts/suggestions on types of scenarios, sets of scenarios, priorities, etc.

Framing of ScenarioMIP proposal

Relation to other MIPs (esp LUMIP, AerChemMIP)

Ensemble size, and for which scenario?

Time horizon -- 2050, 2100, 2300?

Earth system feedbacks (emission/concentration driven)?

Timeline/process, including phase 1/phase 2

Continuing/adding other ScenarioMIP activities -- pattern scaling, scenario differences, evaluation of RCP experience?

High resolution run

Emission-driven ESM
