HOW TO ADD IN A STANFORD CREDIT CARD TO THE GUEST TRAVELER PROFILE *
(*Optional – Guest Travelers can also pay with their own credit card during booking process.)

Stanford travel card (t-card or dept card) details can be added into each Guest Travelers’ profile only after the Guest Traveler has registered. Travel Arrangers can view their lists of registered Guest Travelers in their Traveler list. Registered Guest Traveler names will display as hyperlinks.

Click on registered Guest’s name.

</tr>
</tbody>
</table>

From the left menu, click on the ‘Billing Information’ link. The Billing Information page opens. Click ‘Add a new card’ to add credit card details.

![Add a new card]

Once the card has been added to the profile, only the last 4 digits of the credit card can be viewed by either the Travel Arranger or the Guest, even when editing the card information.

(Alternatively, the guest may charge their travel to his/her own credit card by adding their personal card number to the Billing Information of their profile. After the guest’s trip is completed, the guest can then request reimbursement from Stanford.)

IMPORTANT NOTE RE: HOTEL PAYMENTS: Adding a credit card into the profile only ensures that the airline ticket will be charged to that card, and not always the hotel stay.

For hotel reservations, a credit card in the profile will only be charged for pre-paid rates, unless the hotel has been contacted directly to set up credit card authorization. Otherwise, the credit card is used only to guarantee a reservation and the traveler must provide payment at check-out.
