Wall = Layer

Checked,
initials, date

Structural sheet

Have you attached a Total Station printout? Y / N

Elevations on top of wall

Elevations at bottom of wall

Number of preserved courses

Excavated length of wall

Dimensions of wall stones

Slabs / pebbles. Comments?

What layer does the wall rest on?

Does the wall have a foundation trench? Y / N

If yes, what layer was the trench dug from?

Which layer(s) does the trench cut through?

What is the first layer that postdates the wall?

What is the first layer that covers the top of the wall?

Which walls does this wall abut?

With which walls does it bond?
