Program Committee
Director: Johan van Benthem
Logic: Sol Feferman, Larry Moss, Rich Thomason, Albert Visser, Scott Weinstein
Language: Nicholas Asher, Aravind Joshi, Ed Keenan, Stanley Peters, Geoff Pullum
Computation: Samson Abramsky, Joe Halpern, Phokion Kolaitis, Rohit Parikh, Yoav Shoham

Lecturers include:
Martin Abadi (UCSC) [Security]
Sergei Artemov (CUNY New York) [Proof Theory In Computation]
Patrick Blackburn (INRIA Lorraine) [Lectures on Hybrid Logic]
Craig Boutilier (University of Toronto) [Logical and Statistical Methods in AI]
Joan Bresnan (Stanford) [Optimality Theory]
Paul Dekker (Amsterdam) [Dynamic Semantics]
R.E. Jennings (Simon Fraser University) [Logicalization]
Ed Keenan (UCLA) [A Mathematical Theory of Grammatical Theories]
Phokion Kolaitis (UCSC) [Finite Games and Model Theory]
Larry Moss (Indiana) [Epistemic Dynamic Logic]
Marc Pauly and Mike Wooldridge (Liverpool) [Modal Logic and Agents]
Fernando C.N. Pereira (UPenn) [Machine Learning in Natural Language Processing]
Frank Veltman (Amsterdam) [Logic and Cognition]
And more!

Workshop participants and organizers include:
Johan van Benthem (Amsterdam) [Organizer: tba]
Sol Feferman (Stanford) [Proof Theory]
G.M. Mints (Stanford) [Organizer: Mathematical Logic]
G.K. Pullum (UCSC) [Organizer: Mathematics of Language]
Thomas Scanlon (UC Berkeley) [Model Theory]
Ted Slaman (UC Berkeley) [Recursion Theory]
Hugh Woodin (UC Berkeley) [Set Theory]
And more!
Student session organized by Maricarmen Martinez (Indiana).

NASSLLI '02 is organized by the Department of Philosophy, the Department of Linguistics, the Department of Computer Science and the Center for the Study of Language and Information, at Stanford University.
