The “Faculty Survey on Teaching, Learning and Assessment” (FSTLA) survey has been developed by the research program on Academic Programs and Students for the National Center for Postsecondary Improvement (NCPI). The primary purpose of the FSTLA is to examine how your institution supports teaching, learning, and assessment in the classroom. We are interested in your perception of how your institution approaches teaching, learning and assessment, how it provides support for it, the types of policies and practices used to promote it, and the uses and impacts of that information. We are interested in your perception of these topics whether or not you are directly involved with them.

Student assessment refers to various ways of evaluating students’ learning. Instructors, departments, schools, states, and employers assess students in many ways. Please refer to this definition of assessment when completing the survey.

This survey is part of an intensive case study that examines your institution’s approach to and strategy for supporting teaching, learning and assessment. The case study report describing your institution’s teaching, learning and assessment strategy will include a profile of responses to this survey. This information should be helpful both in better understanding and in enhancing support for teaching, learning and assessment at your institution. Any questions concerning the survey can be addressed to:

Section I - Background

1. In the space below, indicate:
   Your college/school affiliation (e.g., College of Engineering, School of Business).

Not in Arts and Sciences: 33.3%
In Arts and Sciences: 66.7%

The department in which you hold your primary appointment (e.g., Sociology, Music Education).

   English……16.7%   Physics……16.7%
   Other Humanities….16.7%   Other Fields..33.3%
   Mathematics…..16.7%

2. What percentage of time is your current appointment at this institution?
   __Mean: 97.50________ % time

3. The length of my contract is: (Circle one)

   One term contract………………………………..1 (0.0%)
   Nine to twelve months contract…………………2 (16.7%)
   Multiyear contract ……………………………..3 (0.0%)
   Continuous appointment………………….4 (83.3%)

4. Have you had any of the following experiences? (Circle one for each.)

   Yes  No  Mean
   Held a teaching assistantship as a graduate student?. 2 1  Mean: 1.33
   Held a research assistantship as a graduate student?. 2 1  Mean: 1.17
   Co-authored papers or participated in intensive projects with other students as a graduate student?... 2 1  Mean: 1.67
   Been a department chairperson?…………………2 1  Mean: 1.17
   Held a major faculty-wide office, such as a deanship? 1 1  Mean: 1.00
   Served on a committee charged with implementing assessment of student learning?………………..2 1  Mean: 1.67
   Received at least one firm job offer from somewhere else in the past two years?……………………2 1  Mean: 1.00
   Supervised student teaching assistants?…………..2 1  Mean: 1.33
   Received an outstanding teaching award?…………2 1  Mean: 1.33
   Supervised student research assistants?…………..2 1  Mean: 1.00
   Taken a sabbatical?……………………………..2 1  Mean: 1.33
   Received a research award?……………………….2 1  Mean: 1.17
   Been a staff member or fellow of a campus teaching and learning center?……………………….2 1  Mean: 1.33
   Held a joint appointment across departments?……2 1  Mean: 1.17
   Served on an institutional program review board?…2 1  Mean: 1.67
   Revised my courses based on student assessment information? 2 1  Mean: 1.83
5. **What is the approximate size of the largest class you taught last year?** (Number of students)

   ____35_____

6. **What is the approximate size of the smallest class you taught last year?** (Number of students)

   ____10_____

7. **What proportion of your teaching load is comprised of the following types of courses in a typical academic year?** (Circle one for each.) All – 4 Most – 3 Some – 2 None – 1

</table>
10. How satisfied or dissatisfied are you with the following aspects of your job at this institution? (Circle one for each.)

Very satisfied – 4 Somewhat satisfied – 3 Somewhat dissatisfied – 2 Very dissatisfied – 1

- Your work load.......................... 1 2 3 4 Mean: 2.83
- Your job security .......................... 1 2 3 4 Mean: 3.83
- Opportunity for advancement .............. 1 2 3 4 Mean: 2.80
- Department support for promotion and tenure .. 1 2 3 4 Mean: 3.17
- Quality of students you teach .................. 1 2 3 4 Mean: 2.67
- Collegiality in your department .................. 1 2 3 4 Mean: 3.17
- Relationships with administrators .............. 1 2 3 4 Mean: 3.00
- Support for teaching and learning .............. 1 2 3 4 Mean: 2.83
- Freedom to do outside consulting .............. 1 2 3 4 Mean: 3.75
- Support for assessment activities .............. 1 2 3 4 Mean: 3.00
- Your salary/benefits .......................... 1 2 3 4 Mean: 2.67

11. What is the level of faculty involvement in your institution on the following? (Circle one for each.)

Very strong involvement – 5 Strong involvement – 4 Moderate involvement – 3 Little involvement – 2 No involvement – 1

- Academic planning for undergraduate education. .............. 1 2 3 4 5 Mean: 3.83
- Resource allocation. .................................. 1 2 3 4 5 Mean: 2.83
- Student recruitment policies and decisions . 1 2 3 4 5 Mean: 2.67
- Undergraduate curriculum development .... 1 2 3 4 5 Mean: 3.50
- Use of educational technology .............. 1 2 3 4 5 Mean: 3.83
- Faculty development activities .............. 1 2 3 4 5 Mean: 4.00
- Teaching/learning workshops for undergraduate education .............. 1 2 3 4 5 Mean: 3.17
- Faculty promotion and evaluation .............. 1 2 3 4 5 Mean: 3.50
- Student academic support services .............. 1 2 3 4 5 Mean: 3.00
- Student assessment policies and procedures 1 2 3 4 5 Mean: 3.33
- Interdisciplinary teaching initiatives .......... 1 2 3 4 5 Mean: 3.00
- Innovations in undergraduate education .... 1 2 3 4 5 Mean: 3.40

12. How centralized are each of the following activities at your institution? (Circle one for each.)

Institution – 5 College or school – 4 Department – 3 Voluntarily by ad-hoc faculty groups – 2 No coordination – 1

- Criteria for student grading .............. 1 2 3 4 5 Mean: 3.50
- Criteria for assessment of student learning . 1 2 3 4 5 Mean: 3.33
- Development of new classroom assessment strategies .............. 1 2 3 4 5 Mean: 2.33
- Goals for student learning .............. 1 2 3 4 5 Mean: 3.50
- Curricular requirements .............. 1 2 3 4 5 Mean: 3.67
- Development of teaching techniques .......... 1 2 3 4 5 Mean: 1.67
- Decisions regarding course content .............. 1 2 3 4 5 Mean: 3.17
- Use of student assessment data .............. 1 2 3 4 5 Mean: 4.00
- Determination of coursework requirements . 1 2 3 4 5 Mean: 2.17
- Development of final exams .............. 1 2 3 4 5 Mean: 1.83
- Student evaluations of teaching .............. 1 2 3 4 5 Mean: 3.33
- Faculty peer evaluations of teaching .............. 1 2 3 4 5 Mean: 3.33
13. **Please indicate your level of agreement on statements about students in your courses.** (Circle one for each.)

14. Please indicate your level of agreement on statements about rewards at your institution. (Circle one for each.)

Agree strongly – 4  Agree somewhat – 3  Disagree somewhat – 2  Disagree strongly – 1

The tenure/promotion system is flexible in terms of weight given to teaching, research, and service.........................1  2  3  4  Mean: 2.60
Merit/salary increases are adequate here..............1  2  3  4  Mean: 1.50
Faculty evaluation for promotion considers evidence of student performance in their classes (not just student teaching evaluations) 1  2  3  4  Mean: 1.67
Scholarship on teaching is considered in promotion, tenure, and salary reviews............1  2  3  4  Mean: 2.00
The most highly rewarded faculty are those oriented primarily toward research.........................1  2  3  4  Mean: 1.00
Faculty evaluation for annual salary and merit increases incorporates evidence of student performance........................................1  2  3  4  Mean: 1.17
One can be promoted and tenured primarily on the basis of teaching...............................1  2  3  4  Mean: 3.50
Faculty receive public recognition and rewards for innovative or effective use of student assessment........................................1  2  3  4  Mean: 2.50
Teaching excellence is very difficult to systematically evaluate for salary and promotion........................................1  2  3  4  Mean: 3.00
Faculty scholarship on or innovative uses of student assessment is considered in promotion, tenure, or salary reviews..........1  2  3  4  Mean: 2.33
Collaborative work is too difficult to evaluate for the promotion and tenure of faculty ........1  2  3  4  Mean: 2.17

15. In the last five years, how have each of these changed at your institution? (Circle one for each.)

Very much improved – 5  Somewhat improved – 4  About the same – 3  Somewhat worse – 2  Very much worse – 1

The quality of undergraduate students who choose to pursue majors in your field ......1  2  3  4  5  Mean: 3.00
The ability of this institution to meet the educational needs of entering undergraduate students................................1  2  3  4  5  Mean: 3.40
The quality of learning that students in my program achieve.............................................1  2  3  4  5  Mean: 3.50
The quality of undergraduate education.................1  2  3  4  5  Mean: 3.25
The preparedness of undergraduate students for courses in your department.............1  2  3  4  5  Mean: 2.33
The effort undergraduate students devote to their studies in your department............1  2  3  4  5  Mean: 2.67
The quality of education that a bachelor’s degree represents..............................................1  2  3  4  5  Mean: 3.00
Undergraduate students’ development of necessary competencies in your field........1  2  3  4  5  Mean: 2.80
Knowledge about how to better prepare undergraduates...............................................1  2  3  4  5  Mean: 3.75

16. To what extent do you agree or disagree with the following statements about your institution. (Circle one for each.)

Agree strongly – 4  Agree somewhat– 3  Disagree somewhat– 2  Disagree strongly – 1
17. **At this institution, how would you evaluate the facilities, resources, or personnel supporting your work?** (Circle one for each.)  
Excellent – 5  Good – 4  Fair – 3  Poor – 2  Not available – 1

Section III - Assessment

18. Please indicate your level of agreement with the following views about assessment. (Circle one for each.)

Agree strongly – 4  Agree somewhat– 3 Disagree somewhat– 2  Disagree strongly – 1

Mandated student assessment limits the academic freedom of faculty......................... 1 2 3 4  Mean: 2.50

The results of student evaluations of my teaching influence my approach to assessing student work .............................................................. 1 2 3 4  Mean: 2.17

State or federally mandated assessment requirements improve the quality of undergraduate education......................... 1 2 3 4  Mean: 2.17

Student assessment reduces the quality of education .............................................. 1 2 3 4  Mean: 1.33

I am completely free to implement my own approach to assessment. ........................ 1 2 3 4  Mean: 3.33

Student assessment limits the amount of time I have to devote to other academic activities. 1 2 3 4  Mean: 2.50

Student assessment is more effective when determined by the faculty member rather than by the institution................................. 1 2 3 4  Mean: 3.50

Student assessment has improved the quality of education at this institution.................. 1 2 3 4  Mean: 2.67

Students today are learning more due to an institutional focus on the assessment of student learning................................. 1 2 3 4  Mean: 2.33

From an educational standpoint, it is necessary for us to monitor what students learn .......... 1 2 3 4  Mean: 3.67

The effectiveness of teaching is enhanced when faculty regularly assess students .......... 1 2 3 4  Mean: 3.50

Student assessment techniques accurately measure student learning.......................... 1 2 3 4  Mean: 2.67

Regular assessment of students accurately captures what they are learning in my classroom................................................................. 1 2 3 4  Mean: 3.17

I use more student assessment techniques than I did five years ago.............................. 1 2 3 4  Mean: 3.17

Monitoring student assessment is a distraction and competes with essential academic work... 1 2 3 4  Mean: 1.67

Faculty have a professional obligation to regularly assess what students are learning.... 1 2 3 4  Mean: 3.67

What I learn by assessing student learning has immediate relevance to what takes place in the classroom...................................................... 1 2 3 4  Mean: 4.00

Frequent communication with colleagues improves my student assessment practices.... 1 2 3 4  Mean: 3.17

An effective teacher is one who regularly assesses what students are learning............... 1 2 3 4  Mean: 3.67

Faculty are reluctant to engage in student assessment for fear that student assessment results will be used in evaluations...................... 1 2 3 4  Mean: 2.17
19. Please indicate your level of agreement with the following statements about student assessment at this institution. (Circle one for each.) Agree strongly – 4 Agree somewhat– 3 Disagree somewhat– 2 Disagree strongly – 1

Section V - Teaching and learning

23. How frequently have you engaged in each of the following activities? (Circle one for each.)
   Frequently – 3  Occasionally – 2  Never – 1

   Team taught a course. ....................................................1 2 3  Mean: 1.83
   Stopped lectures to make sure students understood
   the material .................................................................1 2 3  Mean: 3.00
   Collaborated with colleagues from outside your
   discipline on teaching issues......................................1 2 3  Mean: 2.50
   Provided feedback to students immediately after
   each assessment............................................................1 2 3  Mean: 3.00
   Drew on theories and scholarship from other
   disciplines to enhance your own work.....................1 2 3  Mean: 1.83
   Met with students outside of formally scheduled
   times.................................................................1 2 3  Mean: 2.83
   Participated in intensive writing or research
   projects with other faculty..........................1 2 3  Mean: 1.83
   Provided feedback more than three times each term
   to all students..........................................................1 2 3  Mean: 3.00
   Collaborated with colleagues from the same field of
   study.................................................................1 2 3  Mean: 2.67
   Spent a good amount of class time addressing
   student questions..........................................................1 2 3  Mean: 2.83
   Included reading on theories and scholarship from
   other fields in your teaching.............................1 2 3  Mean: 1.33
   Received high teaching evaluations from students ...1 2 3  Mean: 3.00
   Utilized short class activities to assess whether
   students have grasped concepts............................1 2 3  Mean: 3.00
   Consulted literature on teaching and learning to
   inform your teaching..................................................1 2 3  Mean: 2.33
   Limited all student feedback to final course grades ..1 2 3  Mean: 1.17
   Offered a course listed in more than one department.1 2 3  Mean: 1.33
   Received above average merit increases....................1 2 3  Mean: 1.50
   Participated in interdisciplinary course
   development or projects.............................................1 2 3  Mean: 1.67

23. Please indicate your agreement about what students expect of you. (Circle one for each.)
   Agree strongly – 4  Agree somewhat– 3 Disagree somewhat– 2 Disagree strongly – 1

   A challenging learning experience.............................1 2 3 4  Mean: 3.17
   Clearly articulated expectations for coursework ..1 2 3 4  Mean: 4.00
   High grades............................................................1 2 3 4  Mean: 3.00
   Opportunities to pursue subject matter further....1 2 3 4  Mean: 3.00
   Frequent summaries of key concepts......................1 2 3 4  Mean: 3.33
   Extensive one-on-one interaction...........................1 2 3 4  Mean: 2.83
   Extensive use of audio/visual aids.............................1 2 3 4  Mean: 2.50
   An entertaining lecture style.................................1 2 3 4  Mean: 3.50
   Outlines and other printed course aids..................1 2 3 4  Mean: 3.17
   Opportunities to redo assignments to improve
   grades..............................................................1 2 3 4  Mean: 3.00
   Multiple out-of-classroom gatherings ..................1 2 3 4  Mean: 1.67
   Availability during office hours .........................1 2 3 4  Mean: 3.00
25. **How important are each of these activities at your institution?** (Circle one for each.)

Undergraduate student advising ……………………1 2 3 4 5  Mean: 1.50
Graduate student advising …………………………1 2 3 4 5  Mean: 1.60
31. How frequently do you do each of the following? (Circle one for each.)
   Frequently – 3 Occasionally – 2 Not at all – 1

   Encourage students to collaborate on course work through study groups or internet discussions……1 2 3 Mean: 3.00
   Ask students directly whether they understand course material...............................................1 2 3 Mean: 3.00
   Encourage students to act as “peer mentors” to others in review or discussion sections..........1 2 3 Mean: 2.33
   Create regular assignments that have many different correct answers or approaches ..........1 2 3 Mean: 2.33
   Make an effort to mentor graduate students and junior faculty in their own teaching.........1 2 3 Mean: 1.83
   Talk with colleagues regularly about ways in which we can improve our teaching ............1 2 3 Mean: 2.33
   Have a network of colleagues with whom I discuss teaching issues.................................1 2 3 Mean: 2.83
   Depend on the same teaching routines year after year.........................................................1 2 3 Mean: 1.83
   Design classes to be highly interactive ..........................................................1 2 3 Mean: 2.83
   Listen to students' concerns, and take them into account in my teaching...........................1 2 3 Mean: 2.83
   Work to get students to ask questions during class ................................................1 2 3 Mean: 3.00
   Expect students to guide the discussion and activities for a majority of class time............1 2 3 Mean: 2.00
   Introduce new or experimental teaching strategies in class ..............................................1 2 3 Mean: 2.20

32. In how many of your undergraduate courses do you do each of the following? (Circle one for each)
   All – 4 Most – 3 Some – 2 None – 1

   Grade on a curve ..........................................................1 2 3 4 Mean: 1.17
   Collect and evaluate portfolios of student work...............................................................1 2 3 4 Mean: 1.33
   Use short in-class writing exercises (e.g. one minute papers) to quickly assess student understanding of course material..........................................................1 2 3 4 Mean: 1.83
   Use a department-wide examination ..........................................................1 2 3 4 Mean: 1.50
   Use a standardized test ......................................................................................................1 2 3 4 Mean: 2.00
   Use an electronic assessment method ..........................................................1 2 3 4 Mean: 1.17
   Use computer-based practice exercises ..........................................................1 2 3 4 Mean: 2.00
   Provide a course web page ..................................................................................................1 2 3 4 Mean: 1.67
   Lecture extensively ..............................................................................................................1 2 3 4 Mean: 2.60
   Use small group work/group projects ................................................................................1 2 3 4 Mean: 3.17
   Have another faculty member review my teaching for feedback........................................1 2 3 4 Mean: 2.33
   Use service learning experiences .......................................................................................1 2 3 4 Mean: 1.50
   Require multiple drafts of student written work for progressive feedback........................1 2 3 4 Mean: 2.17
   Explicitly state to students your goals for student learning..................................................1 2 3 4 Mean: 2.33
   Require student in-class presentations ..............................................................................1 2 3 4 Mean: 2.00
   Use student performance information to evaluate my own teaching..............................1 2 3 4 Mean: 2.83
   Try new teaching practices .................................................................................................1 2 3 4 Mean: 2.50
33. How do you learn to use new teaching, learning or assessment techniques? (Circle one for each.)
   Almost always – 4  Frequently – 3  Occasionally – 2  Never – 1

   Disciplinary conferences .............................................. 1 2 3 4  Mean: 2.83
   Faculty development workshops .............................. 1 2 3 4  Mean: 3.00
   Presentations by faculty in your department ........ 1 2 3 4  Mean: 2.50
   Discussion in faculty meetings ................................. 1 2 3 4  Mean: 2.17
   A designated master teacher in your department    . 1 2 3 4  Mean: 1.33
   Publications in my discipline .................................... 1 2 3 4  Mean: 2.17
   General higher education publications ..................... 1 2 3 4  Mean: 1.67
   Your graduate students ............................................. 1 2 3 4  Mean: 1.20
   Your undergraduate students ................................. 1 2 3 4  Mean: 1.20
   Conversations with faculty colleagues ...................... 1 2 3 4  Mean: 2.60

34. In the past three years, how many times have you performed each of these activities? (Circle one for each.)
   More than once a year – 4  Annually – 3  Every two or three years – 2  Never – 1

   Attended a faculty development workshop
   presented by your institution’s teaching and learning center .............................................. 1 2 3 4  Mean: 3.83
   Presented a faculty development workshop ........ 1 2 3 4  Mean: 1.67
   Attended a faculty development workshop
   sponsored by your department .............................. 1 2 3 4  Mean: 3.00
   Attended a teaching workshop sponsored by
   your disciplinary association ................................. 1 2 3 4  Mean: 3.50
   Presented a teaching workshop sponsored by
   your disciplinary association ................................. 1 2 3 4  Mean: 2.33
   Participated in informal teaching development
   activities with colleagues ................................. 1 2 3 4  Mean: 3.00
   Discussed teaching with colleagues ...................... 1 2 3 4  Mean: 3.67

SUMMARY

This report summarizes some general insights from the following frequency distribution profile of faculty responses to the “Faculty Survey on Teaching, Learning and Assessment” questionnaire distributed as part of our case study of assessment at South Seattle Community College. The survey was designed to obtain respondent perceptions of the institution’s patterns of undergraduate student assessment in departments focusing on the arts and sciences.

Thirty-four surveys were distributed to faculty in departments pertaining to the equivalent of Arts and Sciences at other institutions; six surveys were returned, presenting an 18 percent response rate and the corresponding issues surrounding such a low response rate. Consequently, these results cannot be generalized to the faculty population as a whole, but will be presented to show trends based on the sample.

I. Background

Responses by faculty indicate appointment time was largely continuous (83.3 percent) with the sample showing single responses from English, Mathematics, Physics, “Other Humanities,” and two responses from “Other Fields.” These faculty indicated highest means in terms of responses to the following areas: revision of courses based on student assessment information, service on institutional committees, and graduate school experiences that encompassed group work with other graduate students.

II. Institutional Perspective

Faculty responses show moderate levels of satisfaction and dissatisfaction across various job-related variables. Most favorably rated items were levels of collegiality within their department, department support for promotion and job security; lowest rated items included student quality and salary/benefits. Faculty felt most strongly involved in faculty development activities, the academic planning process for undergraduates, and the use of educational technology. Conversely, they felt least involved (mean of 2.67 on a 5 point scale) in student recruitment policies and decisions.

When asked about reward systems at the college, faculty tended to agree most with the statement “one can be promoted and tenured primarily on the basis of teaching” while they tended to disagree that faculty evaluations for annual salary and merit decisions incorporates evidence of student performance.

III. Assessment

Faculty agreed most strongly with the idea that assessment had immediate relevance in their classroom. Likewise, faculty tended to agree (3.67 on a 4-point scale) with statements regarding the necessity of assessment and its role in effective teaching practice. Responses also indicate agreement that grades were not the best method for measuring student learning; however responses were mixed to the statement “assessment instruments provide a better gauge of student learning than course grades” reflecting some ambiguity in faculty consensus regarding best assessment practices.

IV. Department and Discipline

Departmental collegiality appeared to be a positive factor at the college, with a mean of 3.50 on a 4-point scale. Responses also indicated a moderate level of agreement about change within specific disciplines, with mean scores above three (Agree Somewhat) to statements regarding the nature of inquiry and conceptions about teaching. Faculty also tended to agree somewhat strongly with the importance of collaborative teaching, due to the complex nature of today’s research problems.

V. Teaching and Learning

Congruent with the student profile, faculty tended to believe that students wanted clearly articulated expectations for coursework and consistent availability of their professors during office hours. Interestingly enough, the second-highest mean in the student expectation measure was the perception that students wanted their instructors to employ “an entertaining lecture style.” Responses to the importance of specific teaching and learning goals within the institutional environment yielded interesting results as well; only two of the mean responses scored above three (very important): inclusion of multicultural issues/readings in the general education curriculum and using student assessment data to meet external agency requirement. Scoring lowest in this section were statements regarding the creation of communities in which academic and social environments were seamlessly intertwined.
VI. Demographics

All respondents to this survey were American citizens. 83 percent considered themselves Caucasian, and all with advanced degrees earned them in the United States. Slightly over 66 percent were married, and 67 percent of the sample was female. These faculty have been employed as a professional in higher education for an average of 20 years, and mean scores indicated on average that respondents are associate or full professors whose primary interest at least minimally leaned toward teaching.
