Assistive Technology

Assistive Technology® is an applied, scientific publication in the multi-disciplinary field of technology for people with disabilities. The journal's purpose is to foster communication among individuals working in all aspects of the assistive technology arena including researchers, developers, clinicians, educators, and consumers. The journal considers papers from all assistive technology applications. Only original papers are accepted. Technical notes describing preliminary techniques, procedures, or findings of original scientific research may also be submitted.

Indexed/Abstracted In: *Assistive Technology*® is indexed or abstracted in the following services: AgeLine Database (AARP), Compendex Plus, BioEngineering Abstracts, CINAHL, EMBASE/Excerpta Medica, ERIC, Health Services Research (National Library of Medicine), INSPEC, Social Science Citation Index, PROMPT, UnCover, PubMed, PsychInfo, RECAL Information Services

EDITOR

Rory A. Cooper, Ph.D.
University of Pittsburgh

ASSOCIATE EDITORS

Heidi Koester, PhD

RECENT CONTENTS

Evaluation of Gait Characteristics and Ground Reaction Forces in Cognitively Declined Older Adults with an Emphasis on Slip-Induced Falls, *Thurmon Lockhart, Sukwon Kim, Radhika Kapur, and Shannon Jarrott*

Feasibility of Machine-Based Prompting to Assist Persons With Dementia, *Megan Witte Bewernitz, William C. Mann, Patricia Dasler, and Patricia Belchior*

Effects of Assistive Technology on Functional Decline in People Aging With a Disability, *Dorothy J. Wilson, Judith M. Mitchell, Bryan J. Kemp, Rodney H. Adkins, and William Mann*

RESNA Position on the Application of Power Wheelchairs for Pediatric Users, *Lauren Rosen, Julianna Arva, Jan Furumasu, Michele Harris, Michelle L. Lange, Elisabeth McCarthy, Rosanne Kermoian, Heather Pinkerton, Teresa Plummer, Jodi Roos, Andrina Sabet, Paula Vander Schaaf, and Terri Wonsettler*

Evaluating the Benefits of Displaying Word Prediction Lists on a Personal Digital Assistant at the Keyboard Level, *Cynthia Tam and David Wells*

State of the Science Workshop on Wheelchair Transportation Safety, *Patricia Karg, Mary Ellen Buning, Gina Bertocci, Susan Fuhrman, Douglas Hobson, Miriam Manary, Lawrence Schneider, and Linda van Roosmalen*

RESNA Position on the Application of Wheelchair Standing Devices, *Julianna Arva, Ginny Paleg, Michelle Lange, Jenny Lieberman, Mark Schmeler, Brad Dicianno, Mike Babinec, and Lauren Rosen*

Techniques and Recommendations for the Inclusion of Users with Autism in the Design of Assistive Technologies, *Peter Francis, David Mellor, and Lucy Firth*

Clinical Use of Interface Pressure to Predict Pressure Ulcer Development: A Systematic Review, *Jasper Reenalda, Michiel Jannink, Marc Nederhand, and Maarten Uzerman*

FREE ARTICLE!

Design of an Iconic Communication Aid for Individuals in India with Speech and Motion Impairments, *Samit Bhattacharya and Anupam Basu*

This article is available to access and download for FREE from

March 8th, 2010 to June 8th, 2010.

Go to www.tandf.co.uk/journals/UATY and click on the NEWS AND OFFERS button.

SUBMISSIONS WELCOME!

Rehabilitation Engineering and Assistive Technology Society of North America (RESNA)

Founded in 1979, the purpose of the Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) is to improve the potential of people with disabilities to achieve their goals through the use of technology. RESNA serves that purpose by promoting research, development, education, advocacy and provision of technology; and by supporting the people engaged in these activities.

RESNA's membership ranges from rehabilitation professionals to consumers to students. All members are dedicated to promoting the exchange of ideas and information for the advancement of assistive technology.

RESNA members receive a print and online subscription to *Assistive Technology*[®] as part of their membership.

To become a member and to learn more
about RESNA, visit www.resna.org

ONLINE SERVICES AVAILABLE FROM TAYLOR & FRANCIS

informaworld[®]: The online platform for Taylor & Francis and Informa e-products. To find out more, go to: www.informaworld.com.

informaworld Alerts: is a free email contents alerting service designed to deliver tables of contents for over 1,100 Taylor & Francis journals of your choice in advance of the printed version. Registering for the service is simple and you can now request to receive alerts by main category, subcategory, title or keyword. For more information visit: www.informaworld.com/alerts.

CrossRef: An international active reference linking service. Visit www.crossref.org for more information.

e-Updates: Register your e-mail address at www.tandf.co.uk/eupdates to receive information on books, journals, and other news within your areas of interest.
