Ice and water will be provided on the sidelines.

A Certified Athletic Trainer (ATC) will be present during all home games, and will be available for emergency care only. If you do not travel with an ATC, pre-game taping will be provided time permitting, but is not guaranteed, and will consist of only preventative taping of ankles. Taping will not be provided unless you provide your own supplies. The ATC will not be available to evaluate pre-existing injuries of your athletes. In the event of an emergent, i.e., potentially catastrophic injury during game, the ATC will stabilize that injury and refer your athlete to other medical personnel as needed.

Please make sure athletes who use inhalers have them readily available on the sidelines in order to ensure timely use in the event of an asthma attack.

**If you travel with a Certified Athletic Trainer:**
Please have your ATC identify themselves to the Stanford Rugby ATC. A treatment table will be available to use for taping your athletes.

**In the event of a medical emergency:**
EMS will be activated via 911. Our location is El Camino and Churchill at the rugby fields. The key to open the gates to allow access to the field will be located with the Certified Athletic Trainer.

Watchmen will have a key to the outer gate along El Camino:
Hank: (M, T, W nights, Sat/Sun): 408-394-4011
Winston: (T, W, Th, Fr nights): 650-714-2654

**Area Medical Centers:**
Stanford Medical Center (ER)
300 Pasteur Drive, Stanford, CA
650-498-3333

Palo Alto Medical Foundation/Urgent Care
