Bibliography: Decapoda
Pacific Coast Carcinology

Pt. I. General Crustacea papers, but which treat Decapoda importantly

Pt. II. Exclusively Decapod papers.

The following are considered definitive to the date of their publication and we needn't go back of them (except for including, if available, the Milne-Edwards Mexican paper with color lithos, and the Holmes 1900 synopsis with its fine bibliogr).

Rathbun HB. 4 vols. Grapsoid 1918
Spider Crabs 1925
Cancroid Crabs 1930
Oxystomatous etc 1937

---Over---
So no Brachyuran crab papers need be cited before the above dates. This applies to all areas treated, Panamic as well as Aleutian.

Rathbun 1904 Harriman, for all groups of Decapods as far S as San Diego.
BUT NOT including Panamic below that point.

Schmitt 1921 California. All groups within the confines of Calif. Takes up material to 1918 only, there was a publ. lag.
