Resources for Learning SPSS

Manuals

The basic manuals provided by SPSS (PASW) are:

- PASW Statistics 18 Core System User’s Guide
- PASW Statistics 18 Brief Guide
- PASW Statistics 18 Command Syntax Reference
- PASW Statistics Algorithms

These manuals (and other additional reference materials) can be found on the website:

http://support.spss.com/ProductsExt/Statistics/Documentation/18/clientindex.html

Books

Available in Digital Format at Socrates:

Online Resources & Tutorials

SPSS website:  http://www.spss.com/

Courses organized by SPSS, list available at: http://www.spss.com/training/
A basic tutorial on getting data, creating tables and calculating statistics is available on our machines.

Note: All of these books and manuals are available on a non-circulating basis in the Velma Denning Room (Room 120F in the Bing Wing of Green Library).
