Stanford Graduate School of Business
MgtEcon 300: Growth and Stabilization in the Global Economy

Spring 2023 — Syllabus

Section 1: Monday / Thursday: 8:15 – 9:35am in C106
Section 2: Monday / Thursday: 10:00 – 11:20am in C106
Midterm exam: Take home exam, 2 hour window on Tue 5pm to Wed 5pm May 2-3.
Final exam: Take home exam, available Thur June 8 at 8am, due Tue June 13 at Noon.

Please read this syllabus carefully before the first class and complete the assigned readings for that class. The syllabus contains essential information about schedules, assignments, exams, and the commitments you make to take this course.

Instructor: Charles I. Jones
Office: Faculty East 335
Phone: (650) 725-9265
Email: Chad.Jones@Stanford.edu
Office hours: Wednesdays, 2-3pm in E335

Assistant: Jessica Flores-Solano
Office: Faculty BC 247C
Phone: (650) 736-3455
Email: jj3715@stanford.edu

Teaching Assistant: Shifrah Aron-Dine (arondine@stanford.edu)
Office Hours: Mondays 5-6pm in E110 and Wednesdays 2-3pm in C103.

Canvas: The course syllabus, handouts, supplementary materials, and homework assignments and answers will be posted on Canvas.

Course Reader: There is a digital course reader containing required supplementary readings. All readings are available on Canvas. Links to original sources are also available in the syllabus, but may have restricted access.

Overview: This is a survey course in macroeconomics. This course gives students the background they need to understand the broad movements in the global economy. Key topics include long-run economic growth, technological change, booms and recessions, inflation, interest rates, monetary and fiscal policy, wage inequality, international trade, and exchange rates.

By the end of the course, students should be able to read and understand the discussions of macroeconomic issues in The Economist, the Wall Street Journal, the Economic Report of the
President, or the Congressional Budget Office. The course will be self-contained, so students who have not had any prior exposure to macroeconomics should be able to complete the course successfully.

**Grading:** Grades are determined as follows: 50% based on the final exam, 25% based on the midterm, and 25% for group homework assignments. You may not seek any help from AI tools or other sources of writing help (e.g. ChatGPT) for any of the homework assignments or exams.

The midterm exam is an open-book take-home exam. It is NOT a group assignment, and your work must be entirely your own. The midterm will be posted to Canvas at 5:00 PM PT Tuesday May 2. You will have 2 hours to complete the exam from the time you start it, and you can choose to start it anytime from when the exam is posted until 5:00 PM PT on Wednesday May 3. If it will help your grade, we will use your final exam score in place of your midterm score in computing your overall grade for the course. However, note that the midterm is easier than the final. That is our goal. We want to reward those who take the midterm seriously.

The final exam is an open-book take-home exam. It is NOT a group assignment, and your work must be entirely your own. The final will be posted to Canvas at 8am on Thursday, June 8. The exam will be due no later than Tuesday, June 13 at Noon. We expect the final exam to take 4–6 hours to complete, depending on your preparation. You must submit your final exam online using Canvas before the deadline. Midterm and Final Exam dates and times cannot be changed, and no exceptions will be made.

Any re-grade requests must be made within 5 days after we return the exam to you. The request MUST be done in writing and returned to the instructor with the entire exam. The request should include a description of the problem and why you think the exam should be graded differently. In such cases, we will re-grade the entire exam — not just the question you identified.

At times, we may “cold call,” asking questions on readings for a class session. The cold calls create an incentive for everyone to be well prepared for class, leading to a much more stimulating class discussion. We will not always cover all material in the assigned chapters and readings in class but will expect you to have done the reading.

No one is allowed to take the course as an auditor or on a pass/fail basis. Due to the structure of the course, a student will not have a successful learning experience if he or she is not able to put in the required time outside of the classroom doing the readings and assignments. Also, students who are not adequately prepared can slow the class down and take away from the quality of the experience for those students who are prepared.
Course Requirements:

- **Prepare.** Do the assigned readings before the start of class and come to class prepared to discuss them. The readings include chapters from the textbook and short articles in the course reader or handed out in class. You must be prepared to summarize each reading in class if called upon; we will cold-call students to discuss each short article.

- **Attend.** You must remain in the same seat throughout the quarter. You are allowed two unexcused absences. For each unexcused absence after that, we will take off a point from the cumulative assignment score. We will not separately monitor tardiness. Attendance will be recorded at start of class. If you are missing, you will be marked as absent. In accordance with Stanford GSB rules, you are required to notify us (ahead of time if possible) to indicate each class that is missed. *Please use the GSB absence form to notify us of your absence.* (There is also a link to the form on the Canvas home page for the course.)

- **Gadgets and gizmos.** No laptops, phones, or tablet computers may be used in class without the explicit permission of the instructors.

- **Check the web site.** We will use the course web page to let you know about any changes in readings, corrections in the handouts, etc. This is very important: If you do not check the web site regularly, you will miss important information.

- **Be informed.** Students are required to read the business section of a major newspaper — preferably *The Wall Street Journal*, the *Financial Times*, or *The Economist* — in order to stay abreast of developments in the world economy.

- **Turn in group assignments.** Four homework assignments will be posted and collected on Canvas (see the syllabus below for precise dates and times). *No late assignments will be accepted.* Assignments will be graded on a “check+ (3),” “check (2),” “check- (1),” basis. “Check+” is reserved for a small fraction of assignments that are well-above average quality. “Check” will be the most common score, and indicates successful completion of the assignment. “Check-” indicates an unsatisfactory assignment, which should signal either a lack of understanding of the material or a lack of sufficient effort. Failure to submit your assignment on time will result in a grade of 0 for that assignment. Bound by the honor code, you are not permitted to look at solutions to assignments from previous years. Solutions to the assignments will be posted on Canvas shortly after the deadline. *We will drop your lowest assignment grade in computing your cumulative assignment score.* This cumulative assignment score constitutes 25% of your grade in the course.

- **Assignment groups.** You are strongly encouraged to work in groups (containing at most 4 members), and *each group should submit a single PDF solution with each member’s name listed on the front page.* You will form groups in Canvas for the first assignment and keep the same assignment group for the entire course. Groups may include students from different sections, but only among sections taught by the same professors.

- **Take the exams.** Subject to the conditions described above. IMPORTANT: Exams will NOT be group assignments, and your work must be entirely your own.
• **Optional 15-Minute Presentations in Penultimate Class.** Toward the middle of the quarter, we will send out an announcement soliciting proposals for a 15-minute group presentation that will occur in the next-to-last session of our course. We will select four groups to present in each section. These presentations can be on any aspect of macroeconomics and business that a group finds interesting. The goal is to educate and inform the rest of the class about a topic of interest. The reward for a presentation will be up to 5 extra points on the final exam (based in part on the quality of the presentation and in part on the standard deviation of the test, which is scored out of 120 points) for each group member. Groups must be between two and four students in size.
Course Schedule and Outline

Introduction

April 6: An Overview of Macroeconomics
Jones, Chapters 1, 2, and 3.

The Long Run

[Assignment 1 available Friday April 7 at 5pm]

April 10: Why are some countries richer than others?
Jones, Chapter 4.

April 13: Why do economies grow? Inputs?
Jones, Chapter 5.
“No Need to Dig” The Economist, November 2, 2013.

[Assignment 1 due Sunday April 16 at 11:59pm]

April 17: Accounting for Growth
Jones, Chapter 6 (Section 5 only).

[Assignment 2 available Wednesday April 19 at 5pm]

April 20: The Economics of Ideas
Jones, Chapter 6 (Sections 1 and 2).
“Should Consumers Be Able to Sell Their Own Personal Data?” Wall Street Journal, October 13, 2019.

April 24: Innovation and Economic Growth
Jones, Chapter 6 (Sections 3 through 8).

[April 26: Announcement and solicitation of Group Project proposals]

April 27: Globalization and Trade

Jones, Chapter 19.

[Assignment 2 due Sunday, April 30 at 11:59pm]

May 1: The Dismal Science: Unemployment and Inequality

Jones, Chapter 7.

May 2–3: ***Midterm Exam*** (2 hour window on Tue 5pm to Wed 5pm)

May 4: The Dismal Science: Inflation in the Long Run

Jones, Chapter 8.

May 8: No class this day. Replaced by the Guest Speaker at Noon on May 8.

May 8 (Monday), Noon–1pm: **Guest Speaker — Pinelopi Koujianou Goldberg**

Penny Goldberg served as chief economist of the World Bank from 2018 until 2020 and will be our guest speaker at a special Zoom session of our class for all MgtEcon 300 sections from Noon - 1pm on Monday May 8. More details to come.

[Group Project Proposals due by Wednesday May 10 at 11:59pm]

**The Short Run**

May 11: *Booms, Busts, and the IS Curve*

*Jones*, Chapters 9, 10, and 11.

[Assignment 3 available Friday May 12 at 5pm]

May 15: *Monetary Policy and the Phillips Curve*

*Jones*, Chapter 12. Also, Chapter 14, pp. 393–398.

May 18: *Stabilization Policy & Expectations*

*Jones*, Chapter 13 (Sections 6 and 7), rest of Chapter 14.

[Assignment 3 due Sunday May 21 at 11:59pm]

May 22: *The Past 20 Years in Light of the Great Depression*

[Assignment 4 available Wednesday May 24 at 5pm]
May 25: *The Fiscal Problem of the 21st Century*

*Jones*, Chapter 18.

[Assignment 4 due Wednesday May 31 at 11:59pm]

May 31: *Exchange Rates and the International Financial System*

*Jones*, Chapter 20.

“What the German economic model can teach Emmanuel Macron” *The Economist*, May 27, 2017.

June 1: *Group Presentations*

June 5: *Wrap-Up*

*Jones*, Chapter 21.
