A $450 million investment

A stronger downtown

A new city image

The Bay City Revival redevelopment proposal creates a sustainable community on the shores of Hamilton Harbour, while linking the city to the water. In time, this new community will take its place in the network of neighbourhoods throughout Hamilton. The developed waterfront will be a showpiece first and foremost for the citizens of the city who will be able to walk, cycle, and drive to the west harbour and enjoy its amenity alongside local residents.
We need affordable housing.

Also, who is going to be driven out by this development? Priority should be given to avoiding the displacement of harbor residents.
will be a showpiece first and foremost for the citizens of the city who will be able to walk, cycle, and drive to the west harbour and enjoy its amenity alongside local residents.

Overall, the Baycity Revival Redevelopment Plan represents the next phase of urban development for the City of Hamilton. This phase includes a recognition of the qualities and strengths which make the city a special place to live, while ensuring that the foundation of Hamilton's existence is firmly entrenched in the urban, social, and cultural fabric of the city.

For more information contact Paul Shaker at:

We don't need a showpiece!

  http://piece.stanford.edu/pod/demo/demogroup/marea/?marea_id=1&msg_id=5

We don’t need a showpiece!

We need affordable housing.

Also, who is going to be driven out by this development? Priority should be given to avoiding the displacement of harbor residents.

I would support this proposal if I knew that

(a) I would not be displaced, or
(b) I would be able to buy/rent one of the newly created spaces (guaranteed!), or
(c) I would be given a low-interest loan for the purchase of another place.
