Language and Gender

Penny Eckert

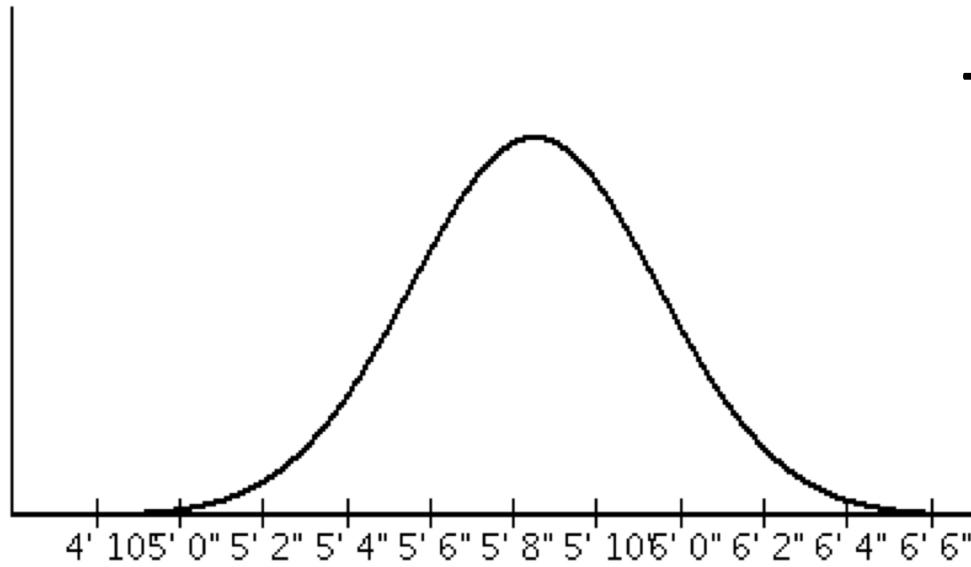

Robert Xu

Language is steeped with ideology

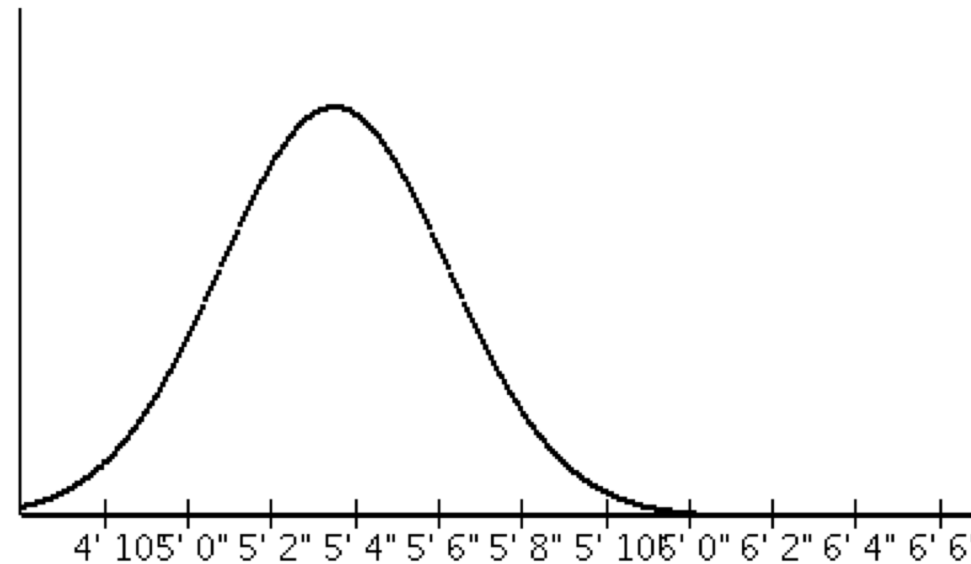

- Language creates and maintains hierarchy
 - Language and nation-building
 - Standardization
 - Access
 - Academics and the Corporate world
- So does gender ...
 - Creates exhaustive categories
 - Assigns rights and responsibilities
 - Creates “natural” justifications

The Binary

men's height

women's height

Why don't we see more heterosexual couples in which the woman is taller?
