Dear Bob

Talked to Klein. I think he has lots of information. New players on the ground. Government might provide a 'temporary' solution which gives interested parties time to work out more complex structures. He wanted to give me more information but I thought it is better we keep communication lines clean so I stopped him and said he should talk to you. He obviously knows that we are interested from whoever.

His US mobile number is 001 917 957 7686.

With best regards

Hans-Joerg
