Rich

Docs should be done by 6 or so

JPM has provided problematic collateral it would appear

We have asked jpm to get someone in

We have a few choices:

- 1) Fight over collateral before closing
- 2) Close and then deal with jpm
- 3) Try to agree on collateral-if not, exclude that part of the trade

We will need to make this call circa 6 or 630 I think

Jonathan and archie are on point
