Guys

here are my suggestions on the speech. I did them in track changes. My strong preference is to not give individual asset class pricing as it only opens you up for comparisons and criticisms. I also would not discuss individual assets such as archstone and suncal, again I don't see the benefit and am concerned about the comparisons and press this info might get. I also agree strongly with getting rid of revenue run rate and the corresponding supplemental schedule

Call me if you have any questions 516 603 9133 and send me the next draft of the speech and the press release supplement.

Bill
