FYI. This is equiv to USD 180m!

Not yet in the secured cash deed format but at least the money is sitting with us... and more than requested. Estimates given to Greg are that \$150m would cover HK, India and Mauritius liabilities.

Greg indicated that he would keep long balance on MMK with until the cash deed is finalised which we are targeting to be done by the end of this week (as is getting a hairy document via making it multi-entity on both sides here in Asia).
