Olivier - Both Jamie and I know ES MIn very well . He used to work with us in our prior life , I spent an hour with him when he was in NY in late June . Let me know if I can be helpful at all, or if you would like either Jamie or me to make a call. I have no issue pursuing - pending your clarification and Buzz running the traps on conflict and any best horse discussion that needs to take place.regards, steve

    Lehman / kdb  
 Subject

As you know kdb has had discussions with lehman reg a significant equity investment. So far kdb had used a boutique IB (not disclosed). We met chairman Min a few days ago who called back today to indicate that he'd like to pursue a significant investment in lehman and asked if we could advise. Before committing we need to better understand scope of mandate. This email to give you heads up and ask if you have any issue with us pursuing. I alerted buzz who will lead the conflicts check. Tks for feedback
