We will.

Thanks,

EC.

JBR, my gut tells me to let Lehman do what they want here. We have so heavily discounted the value of this security (one of the CLOs), that we (JPM) isn't giving much up.

Please advise so we can take action.

Thanks,

EC.

Mark,

I tried you at the office # but they said you are traveling. Anyway.. Lehman Brothers is looking to Release \$1 billion from the \$6.2 billion held on their LCE account. The CUSIP is #722490AA7. This would reduce their Market value to \$5.2 billion in the LCE account. I have placed that \$1 billion position on that CUSIP in a shell so that Lehman can not make the delivery. Please advise on what our next steps should be.

Thanks,
