Stirling - are they specifically holding the first cycle back in lieu of Lehman getting this document finalised?

Guys be aware that Standard Bank is going to hold back settlement on the first cycle. We have sent them signed documentation on the pledge they asked us to have by close today.

They assure us all of these will settle in the second batch.

Subject: Pledge Agreement

Please find attached:

- our mark up of the pledge agreement, in the interests of expediency we have kept this very light on the basis that we will be able to have more detailed discussions about how the arrangements would work before the agreement expires

- a pdf of a draft of the pledge agreement (as amended) duly signed on behalf of Lehman Brothers International (Europe)

- a pdf of the signatory authorities and specimen signatures for Lehman Brothers International (Europe) (we have included this to evidence authority instead of the board resolution certificate included with the first draft of the pledge)

We look forward to speaking to you first thing tomorrow morning. Should you have any questions or comments in the meantime, please do not hesitate to contact us - details below:

Sean Lacey - 07920297876

Huw Rees - 07917 084034
