Tom and kunho finished with hana. They understand our timing. Told that if they commit today in korea that their 9.9% would be filled, otherwise no guarantees.

Ck lee (hana) now over at kic working to get them to step up. We're supposed to meet with kic later, but not yet scheduled.

Tom and kunho agreed to spend some time with hana to refine our ongoing relationship with them, which they said will help with their internal approvals. We're about to start that session.

Long shot is accurate.

Sounds like still a long shot but worthwhile until we get a \$1.5 billion+ order somewhere else

I know larry updated you earlier, but the latest is that tom and kunho have gone to see ck lee (hana) to see how they can move kic along. Meeting / presentation to kic to occur in about 3 hours. Tom and kunho know current timing, and kunho saying that best kic likely to do re timing is by end of day korea time on friday -- but that will need to be tested. We'll let you know feedback as meetings occur. I'm on bb or cell (917 860 6119).
