Subject: RE: Risk and Finance Reports
Attach: Global RE RA and VaR 27 Aug 2007.xls;PrTr.xls

European (/global) real estate risk is available through Lehman Risk. Please see attached an extract of the global real estate risk appetite and Var figures:

<<Global RE RA and VaR 27 Aug 2007.xls>>

For Europe we do not produce separate risk reports, with the exception of capturing the weekly balance sheet:

<<PrTr.xls>>

Thanks,
Patti

In response to a request from the front office, please could you provide all risk reports produced for real estate on a global and regional basis.

Thanks

Paul

Please contact Don Petrow for America real estate. Ken Huang for real estate Asia, and Patricia Luken for Europe.
Thanks.

What about real estate. All but one report from Asia is for securitized products. Please could you provide the reports you produce for real estate.

Thanks

Paul

Here are the files covering SP global. Please let us know if it is sufficient.

Thanks.

Please could you provide. I am collating these reports on behalf of Lynn Gray who has to provide these reports to the heads of fixed income, as they have requested to see all risk and P&L reports on a global and regional basis produced by the desk, risk and finance.

Thanks

Paul

Can you send me all your risk reports you produce for the business, as part of the below request. I need all global and regional reports.

Thanks

Paul

Thanks Jim for the extra work.

One question as we pull this together ---- what is this for? If we we told why this data is needed we could help figure out exactly what to provide. There are hundreds of reports run for the desk overnight and it is hard to imagine someone wanting all of that. I am also afraid the follow up request is to explain what each report is.

Greg

All,

Obtained clarification on the points Greg raised below:

*Note - electronic copies (i.e. Excel, PDF) are now requested; I am

resourcing the printing/collating so you do not have to*

1) All the "customized" reports (created by the desk or product control at the direction of the desk) in addition to the standard Risk and Finance reports are requested

2) Files are needed not links

3) All the reports in the regions as well as the global reports (the exercise is to show all reports used in managing risk & PnL)

4) Whatever is in use in managing each business

In light of this expanded scope, we have a little more time but Mary Pat desires this ASAP...I am in Asia next 2 wks but will continue to organize this (with a slight time zone delay...)

Thanks in advance,
Jim

Jim,

A few questions to clarify...

1) you want the risk and finance reports that Market Risk and Finance create and distribute? Or do you want what the desk may create on our own therefore you are coming to us rather than Market Risk and Finance?

2) do you want links to or hard copies of the online reporting?

3) when you say "use globally" do you mean all the reports used in all the regions or do you mean the global reports that contain all three regions?

4) When you say "finance" reports does this include P&L, metrics reporting, Balance Sheet, Expense reporting, Tax reporting, etc?

Inquiring minds want to know...thanks.

Greg

All,

Mary Pat has requested hard copies of the risk and finance reports that each of the businesses use globally by C.O.B. Thursday 8/23. She needs 4 copies of each. I will aggregate/package, so if you could let me know when you have these, I'll arrange pickup.

Thanks in advance,
Jim
